SYSTEM BROCHURE

Enter the inspiring world of Coulisse window coverings. An exciting world of design inspired by fashion, art, architecture, nature, technology and beauty. A stimulating world that challenges our imagination about what else window coverings can be, offering safety, prevention, well-being, comfort and convenience in a way that embodies efficiency and simplicity. And a purposeful world that aims at being good for people, the planet and the environment.

Discover our world and be inspired.

COLLECTIONS

We offer a wide range of collections, varying from screen, wood and aluminum to leather. All collections are inspired by fashion, art, architecture, nature, technology and beauty.

SYSTEMS

Our modular technology is designed for great optics, ultimate convenience and maximum safety. Thanks to the modular design, endless configurations can be created with a minimum number of parts.

MOTION

Our revolutionary automation concept, with ground-breaking motorization solutions for homes and buildings, is easy to install and simple to operate: it makes motorization accessible for everyone.

T O T A L C O N C E P T

Coulisse expresses its imaginative strength in inspiring collections and advanced system technology. As a one-stop-shop in window coverings, we provide seamless solutions that meet the ever-changing demands in the market. Our product range consists of a wide and complete variety of collections, systems and automation offering different functionality, looks and styles.

Discover our total concept.

ABSOLUTE

by Coulisse

Imagine an indoor world full of light and peace.
A place of safety, well-being and comfort. That is
good for you and the world around you. Offering
privacy and a pleasant climate. That pleases the
senses at every time of the day. A personal space
full of energy and life. Built on clean, smooth design.
On simplicity, easiness and friendliness. On a modular
world of window coverings.

Discover Absolute by Coulisse.

ABSOLUTE ROLLER 2.0

a global concept

- For all window sizes
 - XS: max. size 1,2 x 2,2 m or 1,5 x 1,5 m
 - S: max. size 2 x 2 m
 - M: max. size 3 x 3 m
 - L: max. size 4 x 4 m
- Modular concept: From basic to full option with a minimum number of components
- Endless configuration options including Double roller, Day & Night, Fascia and Soft Venetian
- Different finishes and colors
- Components available in small quantities
- Easy assembly, installation and operation
- Equal cut-off sizes for all system types

THE NEXT GENERATION

child safe by design

Meet the next generation in roller blind technology. Roller blinds are one of the most popular window covering systems in the world. However, the needs and requirements for the product vary per country. Based on an inventory of those needs we expanded our Absolute Roller 2.0 range with new, child safe by design control options and even more functional possibilities and styles.

Video
Absolute Roller 2.0, child safe
by design

THE NEXT GENERATION

maximum safety and convenience

CHAIN

- Intuitive control
- Easy assembly and installation
- Suitable for all blind sizes

TWIN PULL **NEW**

- All benefits of the chain mechanism, no hazardous loop
- Child safe by design: no safety devices needed
- Control with a pull tassel or wand
- Easy assembly: just replace the chain mechanism
- Suitable for all blind sizes: up to 50 mm tubes, 0.8Nm

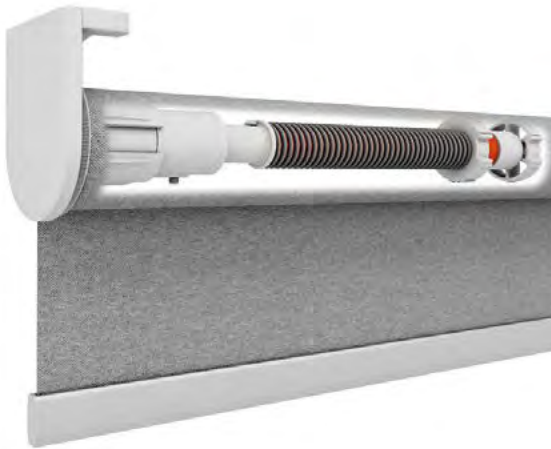

THE NEXT GENERATION

maximum safety and convenience

SPRING **NEW**

- Child safe by design: no chains or cords at all
- No installation profile needed anymore
- Spring tension and bottom bar positions are fully adjustable both in and on the recess

Video
How to install, adjust and
operate spring roller blinds

SINGLE PULL **NEW**

- Child safe by design: no safety devices needed
- All benefits of spring, with the plus of controlling blinds at any height
- Control with a single pull on the tassel/wand, or on the bottom bar

Video
How to install, adjust and
operate single pull roller blinds

PULL MOTOR **NEW**

- Control with a single pull on the tassel/wand
- Accessible motorization: no extra devices needed
- 100% wireless: easy to install, program and operate
- Integrated li-ion battery, rechargeable with micro usb

Natural Aluminium (NA)

FASCIA

Easily connect multiple roller blinds covered by one aluminium profile. A cost-effective yet aesthetic solution, perfectly suitable for large windows and commercial projects.

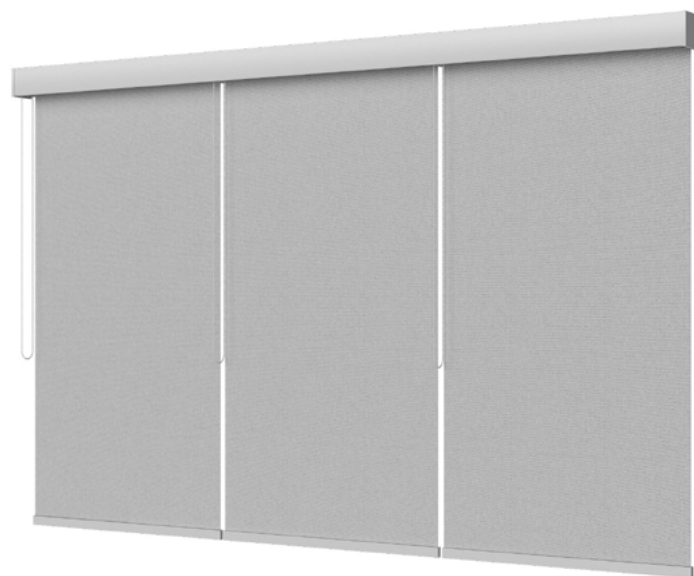

SILENT IDLE END

This idle end is specially designed for heavy duty roller blind applications, both manual and motorized. Two ball bearings inside ensure ultra smooth and quiet operation.

SOFT VENETIAN

These softly layered fabrics diffuse daylight in a beautiful, natural way. Our collection perfectly fits into the semi-open cassette on a specially designed 38 mm tube.

NEW ADDITIONS

to our range

NEW

- Fascia
- Soft Venetian
- Silent idle end

MOTION

automation for blinds

MOTION is a ground-breaking window coverings automation solution that makes motorized shades available to everyone. With accessible motors for the home to advanced solutions for commercial buildings, MOTION offers the perfect motorization for any requirement.

XS

extra small systems

- 19 mm tube
- Max. size 1,2 x 2,2 m or 1,5 x 1,5 m
- Perfect solution for turn-and-tilt windows, small windows and French doors
- System types: bracket, cassette and cassette top-down / bottom-up
- Options: side guidance, double roller and click-in frame
- Special cable side guidance for double roller
- Optional: tensioned bottom bar for cordless, child safe configuration and a clean look

XS - EXTRA SMALL SYSTEMS

XS.10 BRACKET

- Installation on the window frame
- Installation by drilling or glueing
- Option: tensioned bottom bar

XS.11 BRACKET + PROFILE

- Mounting profile suitable for wall or ceiling
- Provides a clean design

XS.30 CASSETTE

30 mm

- Installation on glazing beads
- Extreme small cassette for full opening of turn-and-tilt windows
- Installation by drilling or double-sided adhesive tape
- Options: tensioned bottom bar, black-out

XS.32 CASSETTE

39 mm

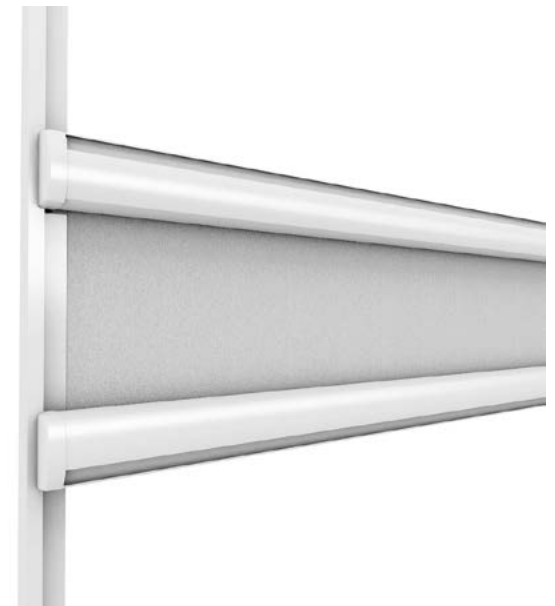

- Installation on glazing beads
- Installation by drilling or double-sided adhesive tape
- Compact design
- Options: tensioned bottom bar, black-out, click-in frame with click-velcro

XS.60 CASSETTE

top-down / bottom-up

- Installation on glass or window frame with double-sided adhesive tape
- Top-down / bottom-up for optimal light control
- Compact design
- For small-size windows

XS OPTIONS

create the perfect configuration

Table 1: Create basic configuration

- ☐ Choose system size
- ☐ Choose operation
- ☐ Choose system type

For example code: RC-XS A 30

RC-XS = roller blind size extra small

A = chain operation

30 = cassette round 30 mm

Table 2: Select options

- ☐ See which options are available for your basic configuration. For example, if it is available with side guidance or if you can use it for making a double roller blind.

The created article code is your reference for ordering, manuals and calculation sheets.

small systems

- 28-30-35 mm tubes
- Max. size 2 x 2 m
- For regular windows (residential)
- System types: bracket, semi-open cassette, cassette, ultimate
- Options: side guidance, double roller

S - BASIC CONFIGURATIONS

RC-S.10 BRACKET

- Basic configuration
- Metal or plastic brackets and caps
- Screw cover caps available

S.11 BRACKET + PROFILE

- Mounting profile suitable for wall or ceiling
- Provides a clean design

S.20 SEMI-OPEN CASSETTE

- Luxury installation cassette
- Perfect for double roller blinds
- Double roller blind closes perfectly when blind is pulled down - with both installation on wall and ceiling
- No visible screws
- Almost no light gap on the top due to installation clip

S.30 CASSETTE ROUND

- Easy exchange of cover caps (i.e. from square to round or to Ultimate) with a minimum number of components; base stays the same
- With side-guidance perfect for black-out
- Cassette completely closed: bottom bar sinks completely into cassette when blind is pulled up
- No visible screws
- Almost no light gap on the top due to installation clip

S.31 CASSETTE SQUARE

S.40 CASSETTE ULTIMATE

- Designer look
- Same base as cassette system
- Different metal finishes
- Matching bottom bar

S OPTIONS

create the perfect configuration

Table 1: Create basic configuration

- ☐ Choose system size
- ☐ Choose operation
- ☐ Choose system type

For example code: RC-S B 11

RC-S = roller blind size small

B = motorized

11 = bracket + profile

Table 2: Select options

- ☐ See which options are available for your basic configuration. For example, if it is available with side guidance or if you can use it for making a double roller blind.

The created article code is your reference for ordering, manuals and calculation sheets.

M

medium systems

- 38-42-50 mm tubes
- Max. size 3 x 3 m
- For residential and contract market
- Geared control units
- System types: bracket, semi-open cassette, cassette, day & night, ultimate, fascia
- Options: side guidance, double roller, soft venetian, intermediate bracket (connected/double control)

M - MEDIUM SYSTEMS

M.10 BRACKET

- Easy, simple installation
- Cover cap for screws
- Metal or plastic brackets

M - MEDIUM SYSTEMS

M.11. BRACKET + PROFILE

- Mounting profile suitable for wall or ceiling
- Provides a clean design

M.20. SEMI-OPEN CASSETTE

- Luxury installation cassette
- Perfect for double roller blind
- Double roller blind closes perfectly when blind is pulled down - with both installation on wall and ceiling
- No visible screws
- Almost no light gap on the top due to installation clip

M.22. SEMI-OPEN CASSETTE COVERED

M.30. CASSETTE ROUND

- Easy exchange of cover caps (i.e. from square to round or to Ultimate) with a minimum number of components; base stays the same
- With side guidance perfect for black-out
- Cassette completely closed: bottom bar sinks completely into cassette when blind is pulled up
- No visible screws
- Almost no light gap on the top due to installation clip
- 5 cassette available

M.31. CASSETTE SQUARE

M.40. ULTIMATE

- Designer look
- Same base as cassette system
- Different metal finishes
- Matching bottom bar

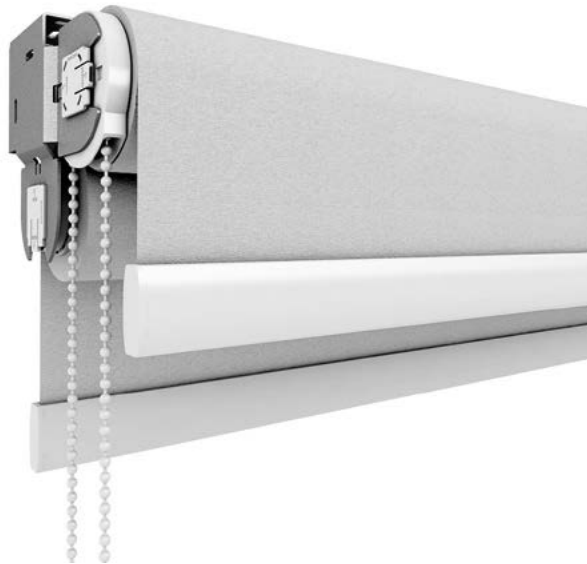

M.50. DAY & NIGHT VERTICAL

- Combine different fabrics in one blind (i.e. black-out and transparent)
- Elegant asymmetrical version with minimal light gap between fabric layers
- Symmetrical version for larger blinds and installation on the recess

M.51. DAY & NIGHT UNIVERSAL

M.70. FASCIA

- Connect multiple blinds covered by one aluminium click-on profile with a length of 580 mm (19 ft)
- Specially designed intermediate brackets: no more double brackets or extra drilling and screwing
- A special chain guide prevents for hardware cut-outs
- Plastic end caps in matching colors
- Perfect for large windows and commercial buildings

M OPTIONS

create the perfect configuration

Table 1: Create basic configuration

- ☐ Choose system size
- ☐ Choose operation
- ☐ Choose system type

For example code: RC-M B 31

RC-M = roller blind size medium

B = motorized

31 = cassette square medium

Table 2: Select options

- ☐ See which options are available for your basic configuration. For example, if it is available with side guidance or if you can use it for making a double roller blind.

The created article code is your reference for ordering, manuals and calculations sheets.

L

large systems

- 65-80 mm tubes
- Max. size 4 x 4 m
- Mainly for contract market
- System types: bracket, cassette, fascia
- Options: side guidance, double roller, intermediate bracket
(connected/double control)

L - BASIC CONFIGURATIONS

L.10 BRACKET

- Easy, simple installation
- Cover cap for screws
- Metal or plastic brackets

L - BASIC CONFIGURATIONS

L.31 CASSETTE SQUARE

- Perfect for black-out
- Cassette completely closed: bottom bar sinks completely into cassette when blind is pulled up
- Suitable for side guidance
- No visible screws

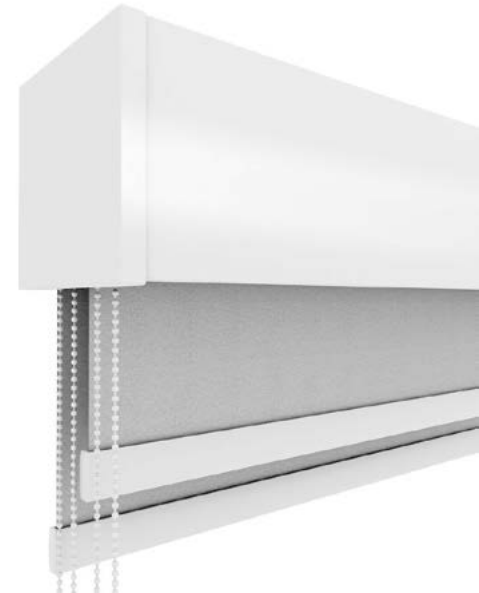

L.70 FASCIA

- Connect multiple blinds covered by one aluminium click-on profile with a length of 580 mm (19 ft)
- Specially designed intermediate brackets: no more double brackets or extra drilling and screwing
- A special chain guide prevents for hardware cut-outs
- Plastic end caps in matching colors
- Perfect for large windows and commercial buildings
- Day/Night: combine different fabrics in one blind (i.e. black-out and transparent)

L.71 FASCIA DAY-NIGHT

L OPTIONS

create the perfect configuration

Table 1: Create basic configuration

- ☐ Choose system size
- ☐ Choose operation
- ☐ Choose system type

For example code: RC-L B 31

RC-L = roller blind size large

B = motorized

31 = cassette square L

Table 2: Select options

- ☐ See which options are available for your basic configuration. For example, if it is available with side guidance or if you can use it for making a double roller blind.

The created article code is your reference for ordering, manuals and calculation sheets.
