2. Standard Shutters
3. Standard Shutters With Divider Rail
4. Café Shutters

All products are shown as 3½" Wood Shutters with Direct Mount: Pearl 1922

Wood Shutters

DISTINCTIVE AMBIANCE

Envision your home filled with the welcoming warmth and richness of custom-crafted wood shutters.Graber Wood Shutters create an undeniably appealing atmosphere, thanks to their superior craftsmanship, authentic materials, and attention to detail.

Hewn from responsibly harvested North American hardwoods, each wood shutter is dried and molded with individual care and attention in our Grayling, Michigan facility. The unique grains and characteristics of the natural wood shine through in every shutter, creating a beautifully unique look.

PERSONALIZED DESIGN

Our wide assortment of options and upgrades lets you bring your personal vision to life. Our custom color options allow you to match the color of your shutters with other elements in your décor, creating a cohesive look that's truly unique to you.

3½" Wood Shutters with Z-Frame, and Hide-a-Tilt™ Control: Espresso 1716

4½" Wood Shutters with Z-Frame, Divider Rail, and Hide-a-Tilt Control: Knotty Pine 1515

Composite Shutters

LASTING STRENGTH & BEAUTY

Showcase the distinctive beauty of shutters in high-humidity rooms. Graber Composite Shutters are made of resilient, high-caliber polymers specially designed to withstand moisture. They won't fade, crack, or peel in humid environments, making them the ideal choice for kitchens, bathrooms, and laundry rooms.

Dining Room Windows: 3½" Composite Shutters with Z-Frame: Base White 2051. Dining Room Arches: 3½" Composite Arched Panel Shutters with Z-Frame: Base White 2051. Kitchen: 3½" Composite Shutters with Direct Mount: Base White 2051.

Specialty

WINDOW SOLUTIONS

Specialty shutters unlock the design potential of your most exceptional windows.

3½" Wood French Door Shutters with Colonial L-Frame, Rectangular Cutout, and Hide-a-Tilt control: Walnut 1012

Specialty Shapes For Unique Windows

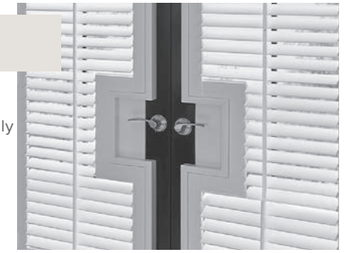
Graber Custom Shutters conform to the needs of each window, letting you accentate your home's most distinguished features.

Custom Arches

Arch windows can be accented with a variety of common shapes—or custom made to fit the exact curve of a unique window.

French Doors

Curved or rectangular cut-out options beautifully complement both contemporary door handles, as well as traditional knobs.



Double-Hung Shutters

One set of shutters is mounted above another set within the same window.

Bypass Panels

Panels slide on a horizontal track and stack neatly behind one another. Ideal for large windows and patio or closet doors.

Arched or Angled Panels

Arched panels fit the rounded shape of full-arched windows, while angled panels accommodate slants.

Café Shutters

This classic style covers the bottom half of the window, allowing light to enter through the top half, while protecting your privacy.

Also available in wood specialties are bifold tracks, and bay & corner shutters.

Create a Coordinated

LOOK THROUGHOUT YOUR HOME

An extensive selection of paints and stains— along with a shared color palette—make it easy to create a cohesive design throughout your home.

With so many matching colors to choose from, creating a cohesive look has never been easier. Match the composite shutters in your kitchen with the wood shutters in your living room. Or all your shutters with your blinds. You can even match your window treatments with the existing trim in your home.

Windows: 2" Composite Blinds: Silk White 2922 with 3" Majestic Valance. Doors: 2½" Composite French Door Shutters with Standard L-Frame and Rectangular Cutout: Silk White 2922

Select Your Finishing Touches

Whether you want clean lines or a dramatic design, our options allow you to tailor your shutters to suit your aesthetic.

2½" LOUVERS

Classic louvers complement the scale of smaller windows.

3½" LOUVERS

Mid-size louvers are a versatile way to increase your outdoor view.

4½" LOUVERS

Large louvers provide the best outdoor view and are ideally proportioned for grand-scale windows.

STANDARD TILT

Offers simple shutter operation, as well as traditional design.

Available in 1-Way (up only) and 2-Way (up/down) louver closure.

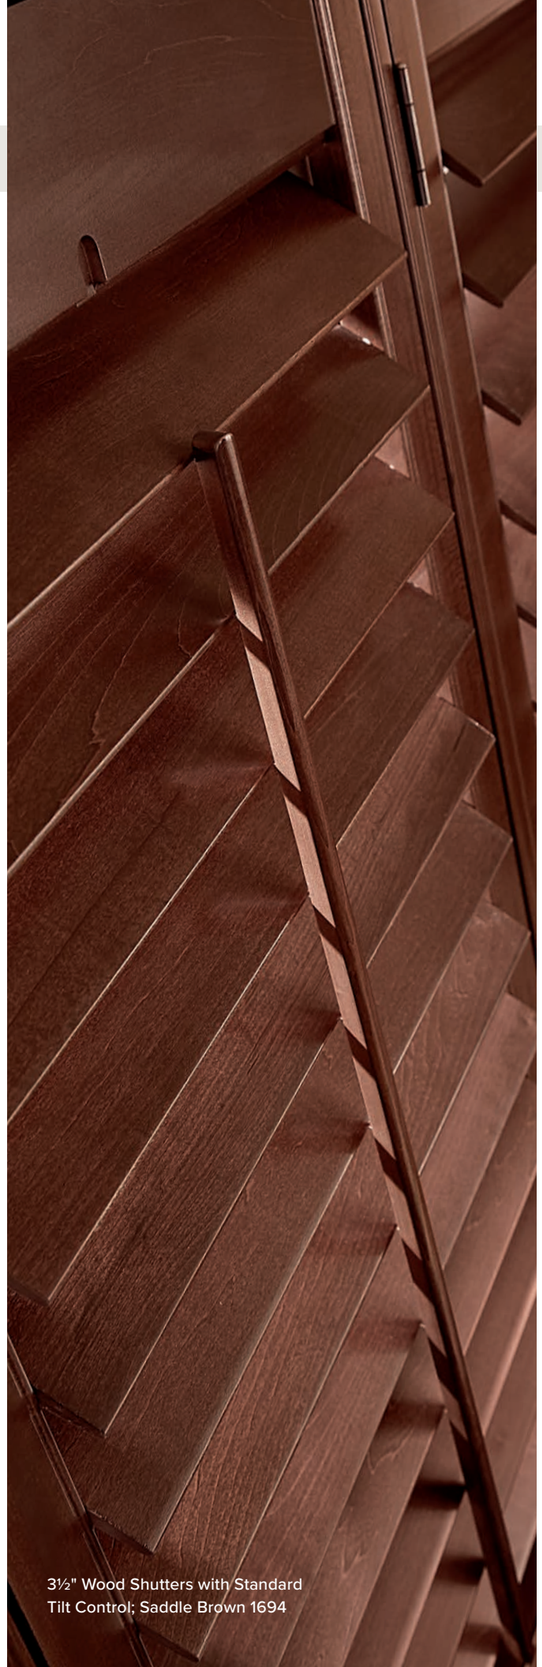
HIDE-A-TILT™

Placed on the back of the shutter panel, a hidden tilt bar provides a sleek look and a clear outdoor view.

Available in 1-Way (up only) and 2-Way (up/down) louver closure.

SPLIT TILT

Allows the upper and lower louvers to operate independently without a divider rail. Lets in light while still preserving privacy.



3½" Wood Shutters with Standard Tilt Control; Saddle Brown 1694

An Elegant Finish

Fine-tune your design with decorative frame options, hinges in your choice of finishes, and other detailed finishes.

L-FRAMES

Highlight your shutters with a sleek, outside-mount frame.

DECO FRAMES

Discover more intricate, architectural details with an outside-mount frame.

Z-FRAMES

Surround your shutter panels with an inside-mount frame.

ASTRAGALS

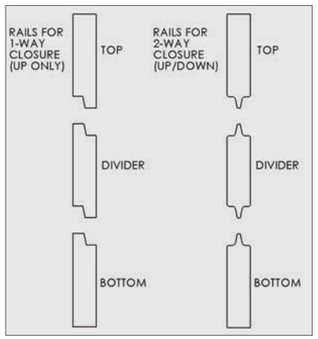
Decorative detailing blocks the gap between panels for improved privacy and light control.

RABBETED

A special cut on the side of the shutter allows the panels to overlap for improved privacy and light control.

DIVIDER RAILS

Allows the upper and lower half of each shutter to operate independently, letting in light while still preserving privacy. On tall windows, divider rails are automatically included and provide structural support.



TILT TYPE OPTIONS

Four tilt type options are available:
1) Front Tilt 1-Way Closure (up only)
2) Front Tilt 2-Way Closure (up/down)
3) Hidden Tilt 1-Way Closure (up only)
4) Hidden Tilt 2-Way Closure (up/down)

Different rails are used for 1-way vs. 2-way closure, as shown here. Shutter panels made with 1-way closure (up only) will offer the tightest louver-to-louver closure.

HINGES

Available in six finishes, hinges provide a beautiful accent to a wide array of paints or stains.
