Sophisticated, Energy-Efficient Style.

Graber CrystalPleat™ Cellular Shades feature innovative, honeycomb-shaped cells that add elegance and depth to your décor. They also help prevent cool and heated air from escaping through your windows, for unsurpassed energy savings.

The Right Size for Every Window

Cellular shades are available in four different cell sizes. Each size creates a specific look for each window and can have an impact on how much insulation the shade will provide.

1 1/4" Single Cell Cellular Shades with Bottom Up/Top Down Cordless Lift: Splendor, Arctic Lichen 0126

5/16" Single Cell

Sleek profile is ideal for smaller windows.*

*Available in select fabrics only.

3/4" Single Cell

Large cell size creates a clean, proportional look for medium to large windows.

1/2" Double Cell

Double-cell construction offers maximum energy savings.

*Available in select fabrics only.

1 1/4" Single Cell

Extra large cell size results in fewer pleats for a cleaner look. Ideal for oversized windows.*

*Available in select fabrics only.

The Light & Privacy Effect

Graber Cellular Shades come in four opacities, ranging from sheer to light filtering to blackout. Light filtering fabrics gently diffuse incoming light, while blackout fabrics block out all light. With privacy, consider not only how much you can see out—but how much others can see in.

Opacities

Sheer

Allows the most sunlight in and the least amount of privacy.

INSIDE VIEW

STREET VIEW

Light Filtering

Blocks some sunlight and offers a moderate amount of privacy.

INSIDE VIEW

STREET VIEW

Semi Sheer

Lets in moderate sunlight, while providing a little privacy.

INSIDE VIEW

STREET VIEW

Blackout

Blocks all sunlight and offers complete privacy.

STREET VIEW

Coordinating Verticals

With expansive, vertical pleats designed for widths up to 192", Graber Slide-View™ Vertical Cellular Shades bring elegant energy efficiency to your wide windows and sliding doors. Coordinate these with your horizontal cellular shades for a harmonious look.

Windows: ¾" Single Cell Healthy Home Cellular Shades with Motorized Lift: Infuse Light Filtering, Aspen 0950;
Door: ¾" Single Cell Healthy Home Slide-View™ Cellular Shade: Infuse Light Filtering, Aspen 0950

Left Stack

Shades open from the right and stack on the left.

Center Stack

Shades open from the center and stack evenly on the left and right.

Right Stack

Shades open from the left and stack on the right.

Add Top Treatment

Creating Layers

Create a Layered Look

With so many fabrics to choose from, Graber makes it easy to create a custom layered look. Start with simple, modern shades, then custom mix colors and materials to elevate your décor. Add soft layers for additional light and sound control, then finish it off with an elegant top treatment. Be sure to integrate the whole window treatment with other design elements in the room, like rugs and furniture, to tie it all together.

Shades Only

Start with crisp, cellular shades in a classic, neutral color.

Add Drapes

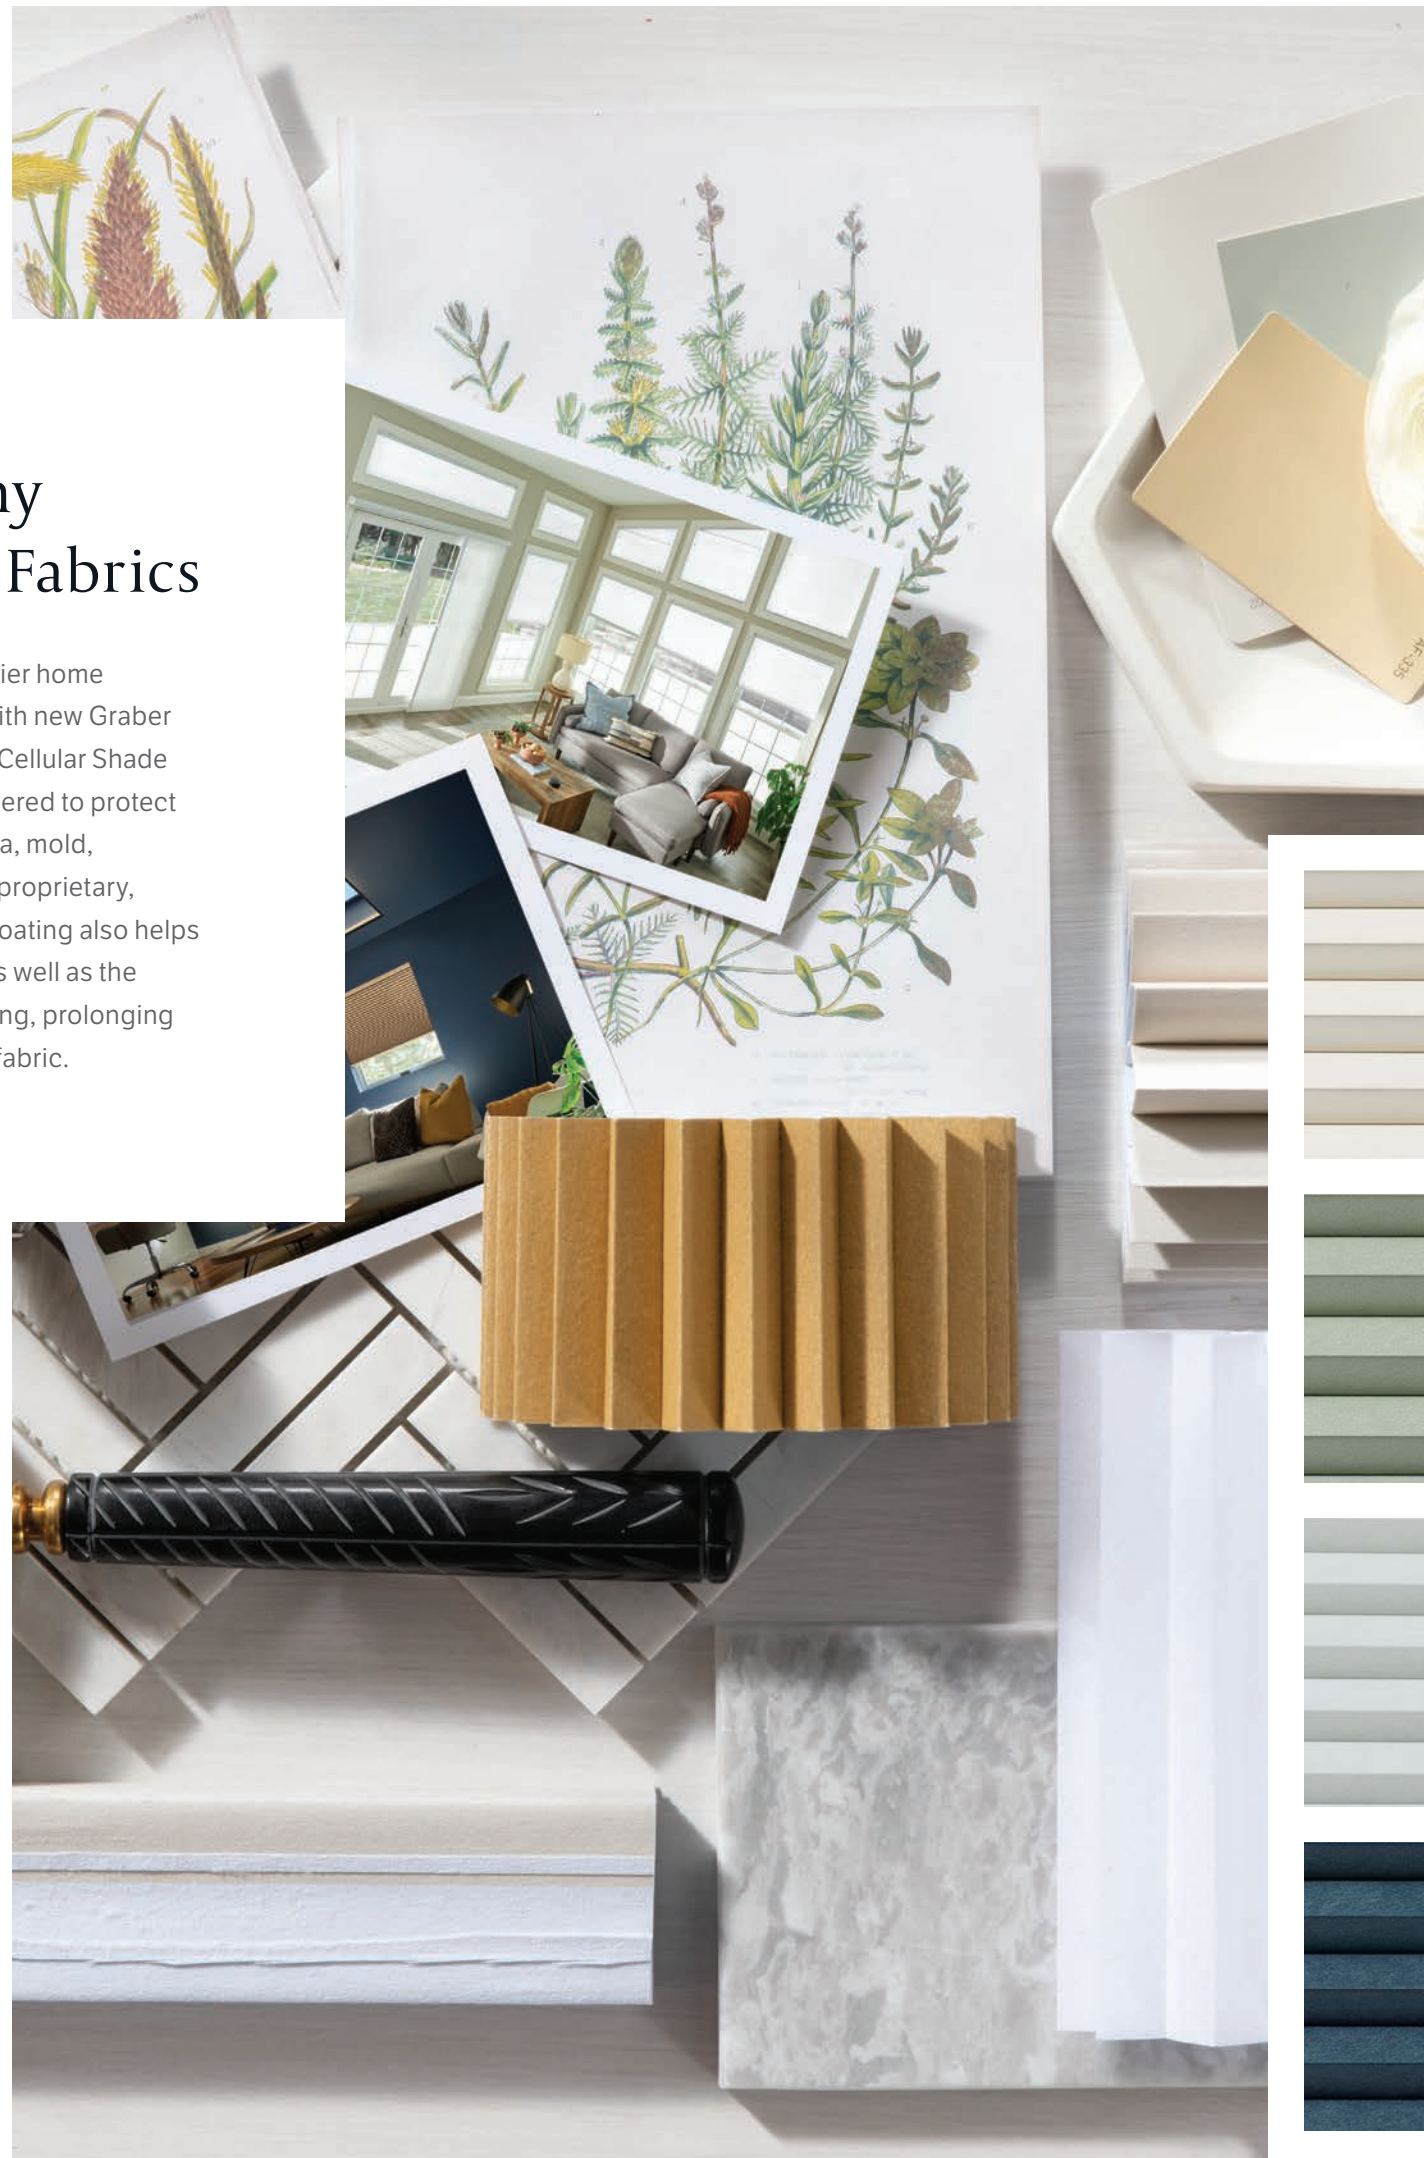

Add soft drapery as a complementary accent.

½" Double Cell Cellular Shades with Cordless Lift:
Splendor, Powder Gray 1534; Premium
Fabric-Wrapped Cornice in Raleigh, Ash 3725;
Grommet Top Drapery: Carver, Natural 5226

Healthy Home Fabrics

Create a healthier home environment with new Graber Healthy Home Cellular Shade fabrics. Engineered to protect against bacteria, mold, and more, this proprietary, antimicrobial coating also helps reduce odor, as well as the need for cleaning, prolonging the life of your fabric.

Healthy Home Fabrics

¾" Single Cell Healthy Home Cellular Shades with Cordless Lift: Infuse Blackout, Autumn Gold 3951

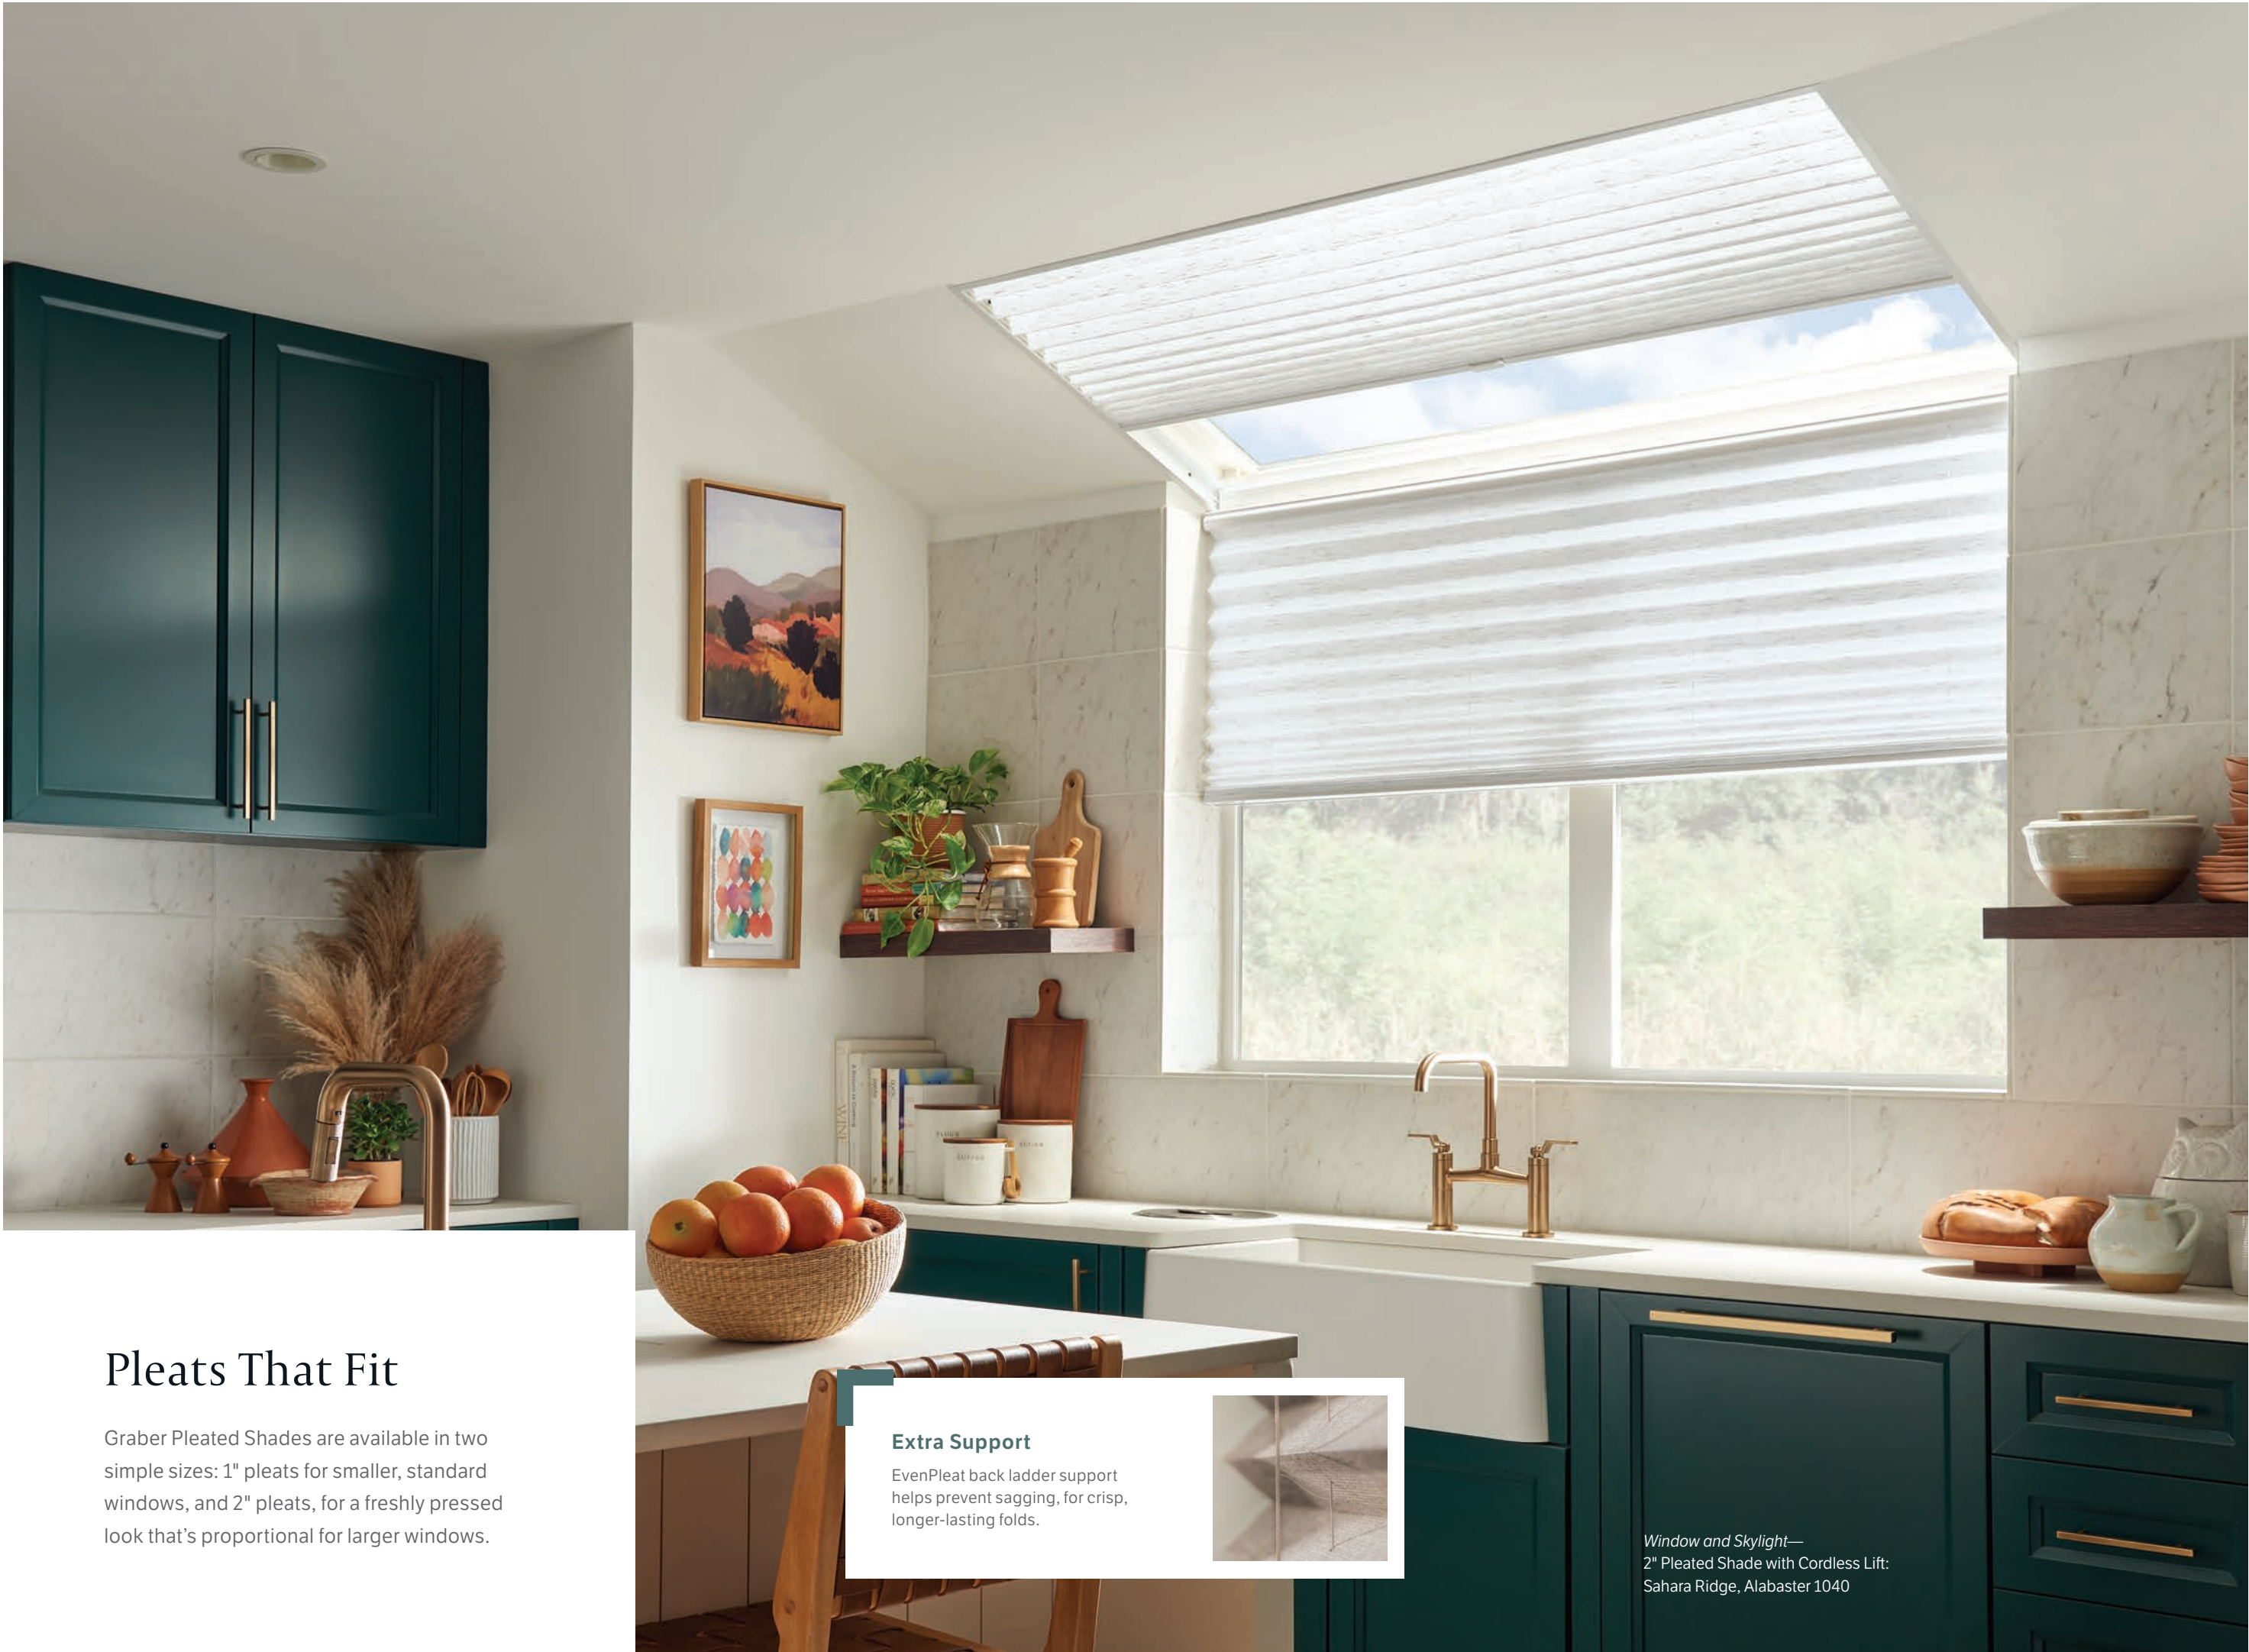

Crisp Lines. Lush Designs.

Graber Pleated Shades deliver precise light control and privacy via crisp, even folds. Available in a wide variety of beautiful prints and patterns, they add subtle depth and personality to just about any décor style.

2" Pleated Bottom Up/Top Down Shades with Cordless Lift: Grasscloth, Crystal 2358

Pleats That Fit

Grabr Pleated Shades are available in two simple sizes: 1" pleats for smaller, standard windows, and 2" pleats, for a freshly pressed look that's proportional for larger windows.

Extra Support

EvenPleat back ladder support helps prevent sagging, for crisp, longer-lasting folds.

Window and Skylight—
2" Pleated Shade with Cordless Lift:
Sahara Ridge, Alabaster 1040

Pleat Sizes

1" Pleat

2" Pleat

1" Pleated Shades with Cordless Lift:
Allure, Savvy Gray 2409

No Liner

Pleated Liners

Pleated Liners

Available in sheer and light-filtering fabrics, Graber Pleated Shades can also be paired with either a privacy or blackout liner to further enhance your light control and privacy needs.

Privacy Liner

Allows diffused light to enter. At night, objects appear as silhouettes from the outside.

Blackout Liner

Blocks light from entering the room. Objects in your home cannot be seen from the outside at night.

Left—¾" Single Cell Circular Cellular Shade: Splendor, Thyme 1383

Right—¾" Single Cell Cellular Shades with Motorized Lift: Couture Blackout, Heron Plume 1131

Specialty Solutions

Windows come in all shapes and sizes. Enjoy the benefits of Graber Cellular or Pleated Shades on specialty windows, such as arches and skylights, while uniquely shaped windows such as circle or hexagon are available in cellular only.

Angled Shades

Custom made to fit uniquely angled windows, these shades operate like traditional shades, with the angled portion remaining stationary.

Skytrack Skylights

Cover your hardest-to-reach windows. Room-darkening side channels not only eliminate light gaps, but house operating cords as well.

Multiple Shades on One Headrail

A single headrail with up to three independent shades is ideal for extra-wide windows.

Room Darkening Side Channels

Significantly reduce slivers of light that peek through your shade edges by adding side channels to the edge of your window frame.

Perfect Arches

Shade covers perfect arches, non-perfect arches, quarter circles, and full circles.

Arch Over Standard

Combines a standard corded shade and arch. Arch is stationary while shade is operable. Available with cellular only.

Specialty Solutions

Lift with Ease

With Graber, you can choose from a variety of lift options designed to fit both your lifestyle and needs. Enjoy the aesthetics and convenience of each of our lift options below for those comfortable, everyday moments.

INTUITIVE. SAFE. CONVENIENT.

Give your shades a high-tech upgrade with motorized lift. Experience the convenience of voice control by connecting your shades to Google Home or Amazon Alexa. And enjoy peace of mind knowing our motorized and cordless lift solutions are certified Best for Kids™.

Motorized

Raise and lower shades individually or as a group with the touch of a button—or by integrating with the Graber app. Ideal for homes with children or pets.

Motorized Wand

Combining cordless and motorized lift, this sleek option features an intuitive, three-button wand that lets you operate your shade—without a remote or smart home app.

Continuous-Loop Lift

Cord or chain loop raises and lowers the shade without changing length.

Cord Lift

Raise and lower your shade using a free-hanging cord.

Cordless Lift

Provides a clean, streamlined appearance. Ideal for homes with children or pets.

Left—2" Pleated Shades with Motorized Lift: Aberdeen, Dulcet Graphite 3353

Right—¾" Single Cell Cellular Shades with Motorized Lift: Valletta, Plebian Blue 0645

Versatile Combinations

For rooms that have many uses—or spaces where light changes throughout the day—Graber offers the flexibility to create a combination shade, for ultimate light control.

Perfect-View™

Combine a pleated fabric on top with a cellular fabric on bottom for maximum flexibility and performance.

Bottom Up/Top Down

Let in natural light while maintaining privacy by lowering the shade from the top. Or lift the shade completely for a full view to the outside.

Sun Up/Sun Down

Combine two cellular or two pleated shades with different opacities, so you can adjust for light and privacy all day—and night.

Top Down Only

Lower your shade from the top with continuous-loop lift. Ideal for rooms where privacy is essential, but natural light is desired. Available with cellular shades only.

Versatile Combinations

¾" Single Cell Cellular Shades with Sun Up/Sun Down Cordless Lift: Simply Sheer, Whisper 2150 (top) and Kinsley Blackout, Rivermist 1729 (bottom)

2" Pleated Bottom Up/Top Down Shades
with Cordless Lift: Grasscloth, Crystal 2368

Top Finish Options

Give your room a polished look with top treatments that not only conceal your headrails and hardware, but allow you to showcase a little more of your personal style.

Top Treatments

Wood Cornice

Cornices are available in custom colors, as well as various styles and heights. They can also add a bold design element to the top of any window.

Wood Valance

Offered in a variety of coordinating paints, stains, and styles, valances featuring 100% North American hardwood add dramatic, clean lines to your décor.

Fabric-Wrapped Cornice

Plush, fabric-wrapped cornices can be coordinated to match your shade or any other element in the room for a balanced finish.

Fabric-Wrapped Rails

Available in cellular shades only, fabric-wrapped rails allow for seamless coordination with the shade fabric for a clean, uniform look.
