

GRABER®

Lightweaves® Solar & Roller Shades

OPTIONS GUIDE

The Graber Experience

CUSTOM TREATMENTS | CUSTOM SERVICE

Graber window treatments are crafted to fit your windows—and your lifestyle. Our smart solutions manage light and privacy, and reduce energy bills, all while enhancing your home design. And the Graber fabric collections are curated by design experts to ensure your choices are on-trend, yet timeless.

Solar Shade with UltraLite Cordless Lift, Fabric-Wrapped Hem Bar: EcoEncore, Mint Condition 10051, and Contour Valance

Cover—Roller Shade with Motorized Lift, Fabric-Wrapped Hem Bar: Chakra, Cirrus 21401, and Contour Valance

Roller Shade with UltraLite Cordless Lift, Fabric-Wrapped Hem Bar: Emerson, Poised Pewter 21393, and Cassette Valance

Graber Lightweaves Solar & Roller Shades

A CUT ABOVE THE REST

The clean lines of Graber Lightweaves Solar and Roller Shades lean towards modern, but your fabric selection allows them to blend with any design style. Shades also perform a function, so consider your light control and other needs. Explore your options in the upcoming pages and create the shade that's perfect for you.

Solar Shade with UltraLite Cordless Lift, Fabric-Wrapped Hem Bar: Nantucket, Spice 10314, and Decorative Hardware: Brushed Bronze

Solar Shades

- Block up to 99% of harmful UV rays—and save your floors and furnishings from sun damage (see chart beneath swatches for each collection's UV blockage).
- Block the sun's glare—so it's easier to see your TV screen and devices.
- Maintain your view outdoors during the daylight.
- Collections include Eco-Performance fabrics—for earth-friendly and family-friendly shades.
- Ideal for home offices and playrooms.

Openness of Fabric

The openness indicates how tightly woven the material is. A low openness percentage means that the shade fabric is less open—it blocks more light, more glare, and more UV rays. A higher percentage indicates that a shade fabric is more open—it blocks less light, but because its weave is more open, it offers a better view.

SOLAR FABRIC | Attributes by Fabric Openness

1% OPENNESS BLOCKS 99% OF UV RAYS 3% OPENNESS BLOCKS 97% OF UV RAYS 5% OPENNESS BLOCKS 95% OF UV RAYS 10% OPENNESS BLOCKS 90% OF UV RAYS

LOWER OPENNESS FABRICS

- Tight weave, so limited daytime view-through
- Minimal daylight filters through fabric
- More heat blocking

HIGHER OPENNESS FABRICS

- Daylight filters through fabric
- Diffused view

SOLAR FABRIC | Attributes by Fabric Color

DAYTIME VIEW, 3% OPENNESS

DAYTIME VIEW, 3% OPENNESS

DARK COLORS

- Absorb more solar heat to increase energy savings
- Provide better light control
- Reduce interior glare while maintaining view
- Enhanced view in daylight

LIGHT COLORS

- Reflect more solar heat to increase energy savings
- Allow more daylight through the fabric
- Diminished view in daylight compared to darker colors

SOLAR FABRIC | Attributes by Time of Day

DAYTIME VIEW, 5% OPENNESS

NIGHTTIME VIEW, 5% OPENNESS

The openness of solar fabrics means they are never truly private. When you have lights on in your home at night, people outside can see in. For privacy, Graber recommends adding drapery to your window or choosing a Graber Dual Shade—with one solar shade and one roller shade for the best of both worlds.

Roller Shades

- Whatever your room requires, we have a solution for its light and privacy needs (see chart beneath swatches for each collection's light control options).
- Fabrics selected by designers—find your favorite for style that lasts.
- Add your personal touch with decorative hems, scallops, and tassels.
- Ideal for rooms where privacy is essential or where you desire design flair.

Roller Shade with Motorized Lift,
Fabric-Wrapped Hem Bar:
Linnea, Warm Glow 23242

Roller Shades

FABRIC OPACITY

Fabric Opacity

Sheer (S)

Lets in natural light, enables a view to the outside, minimal privacy

Light-Filtering (LF)

Diffuses light, transforms sunlight into a gentle glow, limited privacy

Room-Darkening (RD)

Blocks most light, semi-private

Blackout (BO)

More opaque, blocks light, provides the most privacy

Eco-Performance Solar Shades

BETTER FABRICS FOR A BETTER WORLD

Graber Eco-Performance Solar Shades go above and beyond. More than fashionable, our latest fabrics are also earth-friendly and family-friendly—because you’re mindful of what matters most. Look for our Eco-Friendly and Healthy Home designations and know you’re making a responsible choice.

Solar Shade with UltraLite Cordless Lift, Fabric-Wrapped Hem Bar: SafeSync, Bronze Haze 10353, and Decorative Hardware: Brushed Graphite

ECO-FRIENDLY FABRICS

Graber Solar Shade fabrics marked Eco-Friendly have one or more of the following attributes.

- Made from 100% recycled PET material (plastics marked “1”)—reducing landfill waste
- Recyclable after use—a responsible long-term choice
- Remove an average of five plastic bottles from the ocean, per shade—helping to end ocean plastic
- Include preconsumer recycled material in its composition
- PVC-free
- Cradle to Cradle Certified™ Bronze—for your earth-conscious lifestyle

HEALTHY HOME FABRICS

You can breathe a little easier when you choose Graber Solar Shades designated as Healthy Home. The fabrics in these collections offer one or more of the following attributes.

- Made with antifungal and antimicrobial properties—for a clean, healthy, odor-free home
- PVC-free
- GREENGUARD Gold Certified—verifying the fabrics meet strict standards for chemical emissions
- Meet OEKO-TEX® standards—certifying the textiles comply with rigorous test criteria for harmful substances

PET Plastics

When you recycle plastics marked “1,” you’re recycling PET material. And we take 100% recycled PET to create two Eco-Performance fabric collections of Graber Solar Shades. Thanks for recycling!

GREENGUARD Gold Certified

Products designed for indoor spaces are GREENGUARD Gold Certified if they meet strict chemical emissions limits. Graber Solar Shade fabrics have been tested for more than 10,000 chemicals.

Cradle to Cradle Certified Bronze

Cradle to Cradle Certified is the world’s most advanced science-based, multi-attribute certification program for designing, making and verifying materials and products that are safe, circular and responsible.

STANDARD 100 by OEKO-TEX

This certification means the fabric is free of PVC, halogen, lead, formaldehyde, allergenic dyes, pesticides, phenols, and heavy metals, and it meets all VOC content limits.

Cradle to Cradle Certified™ is a registered trademark of the Cradle to Cradle Products Innovation Institute.

Eco-Performance Solar Shades

ECO-FRIENDLY & HEALTHY HOME

Exterior Solar Shades with Continuous-Loop Lift:
Plexus 3%, Nutley Pier 47709

Stylish Solutions

FOR EVERY SPACE

Graber also creates solar shades for the exterior of your home. And window coverings for wide windows can be crafted from either solar or roller fabrics—for patio doors and more! (p. 12) You can even choose two fabrics for a dual shade to maximize your view while maintaining your privacy when needed. (p. 13) Whatever your window, whatever your style, Graber has you covered.

More Window Treatments

EXTERIOR SOLAR SHADES

Exterior Solar Shades

- Mount solar shades outside your windows to increase your home's energy efficiency, providing additional protection from UV rays and the heat.
- Install them around your sun-soaked porch, so you can enjoy your outdoor space all through the day.
- Block up to 99% of harmful UV rays—before they reach your window.
- Built for endurance—with outdoor-grade components.
- See the back of each swatch for availability.

Sliding Panels

- A modern take on treatments for sliding glass doors—for maximum coverage.
- Available in stunning solar and roller fabrics.
- Easily coordinate with other window coverings in your home.
- See the back of each swatch for availability.

Panel Accents with Cord Control: Vancouver, Capri T1515

LEFT STACK

RIGHT STACK

SPLIT STACK

STACKING OPTIONS

Sliding panels can be opened and arranged to the left, right, or split at the center to best accommodate the design and intended use of a space.

Dual Shades

- Combine two fabrics to create one shade—for the ultimate control of light, temperature, and privacy.
- Consider two roller shades with different opacities or combine a solar shade with a roller for UV protection during the day and privacy at night.

Dual Shades with Continuous-Loop Lift:
Roller Shade (front): Arboretum BO, Monarch 13702, and
Solar Shade (back): Plexus 5%, Travertine 47807, and Cassette Valance

More Window Treatments SLIDING PANELS & DUAL SHADES

Graber UltraLite Lift System

VIRTUALLY WEIGHTLESS | PERFECTLY PRECISE

Our revolutionary new system allows you to quietly lift and lower your shade with the lightest touch—and place the shade precisely where you want it. No adjustment necessary! So light, it's ideal for every generation.

Roller Shade with UltraLite Cordless Lift, Fabric-Wrapped Hem Bar: Levity, Fortress 21414, and Decorative Hardware: Brushed Graphite

Lift Control Options

GRABER ULRALITE LIFT SYSTEM

Two UltraLite Lift Systems Available

- UltraLite Cordless Lift**
The safer option for homes with kids and pets.
- UltraLite Dual Lift**
Combines cordless lift with continuous-loop lift for versatility. Perfect for wide or hard-to-reach windows.

Decorative Hardware

Bracket covers on the Graber UltraLite Lift System are available in five modern, metalized finishes.

Solar Shade with Motorized Lift, Fabric-Wrapped Hem Bar: Quintessence, Gilded Linen 41903, and Contour Valance

Lift Control Options

MOTORIZED | CORDLESS | CONTINUOUS-LOOP | SMART PULL

MOTORIZED LIFT

There's an option for everyone—from motorized wand to remote control to the Graber Motorization App. You can even include your shades within a complete home automation system. Plus, motorized blinds and shades are certified Best for Kids™ for homes with children and pets.

- Convenient and quiet, our motorized solutions provide a powerful performance.
- Easier regulation of temperature and natural light—which contributes to energy savings.
- Increased comfort and home security for your family.
- Ideal for large or hard-to-reach windows.

CORDLESS LIFT

Shade operates smoothly via the bottomrail, thanks to our exclusive speed braking system. The cordfree design provides a streamlined appearance—and it's certified Best for Kids so it's a safer option for homes with children and pets.

CONTINUOUS-LOOP LIFT

Shade is controlled with a side-mounted, looped cord, and includes a hold-down device that keeps the chain taut for safety. Adjust large and hard-to-operate shades more easily, while enjoying a clean appearance.

SMART PULL LIFT

A convenient, easy-glide lift system that uses a single cord to lift and lower your shade to the perfect spot. It's a classic option.

Solar Shade with Motorized Lift, Fabric-Wrapped Hem Bar: Harmonics, Titanium 10111, and 4" Fascia: Black

Left—Roller Shade with UltraLite Cordless Lift, Fabric-Wrapped Hem Bar: Florian, Snow Angel 21381, and Contour Valance

Bottom—Roller Shade with UltraLite Cordless Lift, Fabric-Wrapped Hem Bar: Emerson, Poised Pewter 21393, and Cassette Valance

Top Treatments
FASCIA & VALANCES

FASCIA

Aluminum-extruded fascia conceals the fabric roll at the top of the shade and adds a simple, modern touch. Choose from a range of colors that coordinate or contrast with the fabric.

WHITE
871

VANILLA
970

CLEAR
ANODIZED
875

BRONZE
876

BLACK
939

FLAT VALANCE

A sleek fabric-wrapped flat valance.

CONTOUR VALANCE

A rounded, contemporary, fabric-wrapped valance.

CASSETTE VALANCE

Curved, aluminum-extruded, fabric-covered valance conceals the fabric roll at the top of the shade.

FABRIC ACCENT BRACKET COVERS

For a clean, no-fuss appearance. The fabric accent coordinates with the color of the shade fabric.

Solar Shade with Motorized Wand, Fabric-Wrapped Hem Bar: Nebula, Kodiak 10085, and Cassette Valance

Solar Shade Options

THE DETAILS

FABRIC-WRAPPED HEM BAR
Fabric from the shade is wrapped around an aluminum hem bar; comes with color-coordinated end caps.

HEAT-SEALED HEM BAR
Hem bar is completely enclosed within a heat-sealed pocket for a clean, smooth look with no exposed parts.

RAILROADING
Fabric is turned 90 degrees clockwise to accommodate larger windows. Please note that railroaded fabrics may curl along the edge.

SEAMING
Seams are added to solar fabrics to lengthen shades for tall windows.

SIDE/SILL CHANNELS
Aluminum-extruded channels line the sides and bottom of the window to block light from entering.
