⚠WARNING/ADVERTENCIA

Window blind cord can STRANGLE your child. To prevent strangulation, purchase cordless products or products with inaccessible cords.

La cuerda de la persiana puede ESTRANGULAR a su niño. Para evitar el estrangulamiento, compre alternativas cuerda o productos con cuerdas inaccesibles.

WARNING/MISE EN GARDE

STRANGULATION HAZARD — Young children can be strangled by cords. To prevent strangulation, purchase cordless products or products with inaccessible cords. Immediately remove this product if a cord longer than 22 cm or a loop exceeding 44 cm around becomes accessible.

RISQUE D'ÉTRANGLEMENT — Les enfants en bas âge peuvent s'étrangler avec des cordes. Pour éviter l'étranglement, acheter les produits sans corde ou les produits dont les cordes ne sont pas accessibles. Enlevez immédiatement ce produit si une corde mesurant plus de 22 cm devient accessible ou si le contour d'une boucle de plus de 44 cm devient accessible.

⚠WARNING/ADVERTENCIA

Window blind cord can STRANGLE your child. To prevent strangulation, purchase cordless products or products with inaccessible cords.

La cuerda de la persiana puede ESTRANGULAR a su niño. Para evitar el estrangulamiento, compre alternativas cuerda o productos con cuerdas inaccesibles.

WARNING/MISE EN GARDE

STRANGULATION HAZARD — Young children can be strangled by cords. To prevent strangulation, purchase cordless products or products with inaccessible cords. Immediately remove this product if a cord longer than 22 cm or a loop exceeding 44 cm around becomes accessible.

RISQUE D'ÉTRANGLEMENT — Les enfants en bas âge peuvent s'étrangler avec des cordes. Pour éviter l'étranglement, acheter les produits sans corde ou les produits dont les cordes ne sont pas accessibles. Enlevez immédiatement ce produit si une corde mesurant plus de 22 cm devient accessible ou si le contour d'une boucle de plus de 44 cm devient accessible.

GRABER. | DELIGHT IN EVERY DETAIL

Overture Sheer Shades

Step into high style with the easy elegance of Graber Overture Sheer Shades. Luxurious layers of sheer fabric envelop lightweight fabric vanes that overlap when closed to diffuse the light or block it more completely.

Because Graber Sheer Shades are woven from one continuous piece of material, your view is never obscured by unsightly seams or adhesives. Choose from designer textiles in an array of colors, textures, and patterns, and customize your sheer shades to your impeccable style.

AN ESSENTIAL DESIGN DETAIL

For the perfect finishing touch on your sheer or layered shade, Graber includes a fabric-wrapped cassette valance. Raise your shade completely and it disappears into the cassette, allowing a clear view to the outdoors and a clean look at the top of the shade.

2" Sheer Shades with Motorized Lift: Surfside, Mussel 5242

Your Room with a View

Achieve the style you seek with Graber Overture Sheer Shades—and customize your view via your choice of vane size. Note that smaller vanes work well proportionally in smaller windows, and vice-versa for larger windows. Or bend those rules and play with proportions to make your own statement.

2" Sheer Shades with Continuous-Loop Lift: Glessner Woven, Champagne 5183

Sheer Shade Options

VANE SIZE | FABRIC OPACITY

Vane Size

1" Vanes

Sized for smaller windows, the narrow spacing provides increased privacy and light control.

2" Vanes

Enjoy a classic look—with spacing ideal for privacy and light control.

2¾" Vanes

Improve your view to the outdoors when vanes are open.

3" Vanes

Wider vanes offer a bold look but also require fewer vanes, providing the clearest view to the outdoors.

Fabric Opacity

Light Filtering

Diffuses light, transforms sunlight into a gentle glow, limited privacy

Room Darkening

Blocks most light, semi-private

Exquisite Prints | Exceptional Style

GRABER OVERTURE SHEER SHADES

Graber Sheer Shades now include printed fabrics—ranging from a hint of pattern to more daring designs. Whatever you desire, add an artistic touch to any room as a backdrop or focal point.

2" Sheer Shades with Motorized Lift: Deco Diamond, Mink 5254

New & Exclusive

SHEER PRINTS

2" Sheer Shades with Motorized Lift: Starlight, Milky Way 5313; Drapery with Classic Tab Top: Tuzee, White 5680

Layered Shades with Motorized Lift:
Cottonwood, Cattails 4237

Open—When the vanes align, sheer fabrics allow the light to enter the room.

Closed—When the vanes alternate, the light is filtered or blocked more completely.

Mezzanine Layered Shades

With their striking lines, Graber Mezzanine Layered Shades take center stage, offering a contemporary take on flexible light control.

The two layers of fabric include stripes of sheer combined with tightly woven bands of color. When open, the sheer fabric gently filters the daylight. When closed, the opaque bands of fabric overlap to block light more completely, enhancing privacy.

Adjust the two layers of fabric and fine-tune the light to your preference. Designer textiles range from classic neutrals to richer hues, textured weaves to shiny metallics—so you're assured a modern and minimal design with maximum impact.

Layered Shades with Motorized Lift:
Coastal Ridge, Nightfall 4143

Layered Shades with Continuous-Loop Lift:
Heathered, Smoked Oyster 4134

Layered Shades Options

SOLID BAND SIZE | FABRIC OPACITY

Solid Band Size

Small Bands

The most popular and widely available size in our fabric collections, small bands suit a standard window or smaller. Think creatively and experiment with dimension in larger windows.

Large Bands

An excellent choice when you want a bigger impact, large bands offer modern lines, a clean definition in your window, and a great view outdoors.

Extra-Large Bands

Bold lines and the best view. Layered shades with extra-large bands are a great fit for larger windows. Also consider this size when you want fewer bands for the clearest view out your window.

Fabric Opacity

Transparent

Allows the clearest view out and the most light in—with no privacy.

Light Filtering

Allows light to gently filter through, and provides some privacy.

Room Darkening

Significantly dims natural light, allowing for moderate privacy.

Inspired Innovation

You can count on us to bring our best ideas to every Graber custom-crafted window treatment, lift system, and option. With so many details to delight you, you'll love your treatments for years to come.

Layered Shades with Motorized Lift:
Riptide, Sunset 4235

Lift Control Options

Motorized Lift

Powered by ingenuity, our motorization program has a system to meet your needs. Raise and lower shades individually or as a group with the touch of a button. Or integrate your shades into your home automation system. Simple, easy to use, and ideal for homes with children and pets.

Continuous-Loop Lift

Shade is controlled with a color-coordinated cord loop that raises and lowers the shade without changing length.

Standard Valance

Fabric-Wrapped Cassette Valance

This sleek, rounded cassette valance comes standard with your Graber Sheer or Layered Shades. Wrapped in fabric that matches the shade, the cassette valance provides a sophisticated, finished look.

Specialty Profiles

Bay & Corner Windows

Graber custom crafts our sheer and layered shades to fit your bay or corner windows—installed seamlessly and operated independently.

Lavish Looks

IDEAS FOR THE STYLE SAVVY

When designing our window treatments, we keep the big picture in mind. We know you want options for the perfect pairing—whatever perfect means to you. Graber treatments are created in colors that complement and materials that harmonize, so you can easily dress your windows for success.

SIMPLE YET STRIKING

Shades and a cornice may be all you need. Graber Sheer and Layered Shades effectively control the light, while also creating a bold, simple statement all on their own.

1" Sheer Shades with Motorized Lift: Modern Grid, Lilac 5302, and 7½" Noble Cornice with Keystone: Custom Color

LUXURIOUS LAYERS

Boost the drama with drapery—and increase the insulation at the window, too. Elongate your windows with tall drapery panels placed well above the window for a grander appearance. Don't forget: Drapery absorbs sound, which is especially helpful in rooms with hardwood floors.

Layered Shades with Continuous-Loop Lift: Coastal Ridge, Hushed Ridge 4144; Drapery with Grommet Top: Wexler, Chambray 5531

CULTIVATED COMBINATIONS

Consider all your options: Combine your shades with other textures and patterns. Or select a soothing palette that reflects the room's mood or purpose.

With drapery, you receive that extra layer of privacy. A premium fabric-wrapped cornice is a standout feature—with softness that warms up a room. Add your personality into the mix and make your décor even more special.

3" Sheer Shades with Continuous-Loop Lift: Deco Diamond, Evening Lustre 5255; Drapery with Grommet Top: Bursche, White 0334; and Linear Premium Fabric-Wrapped Cornice: Callahan, Poseidon 5163 with Welting: Bursche, White 0334

Top Treatments

Wood Cornices

Available in several styles and heights, cornices conceal headrails and hardware as their function. But they also add a natural element—and a hint of architecture—to the top of a window.

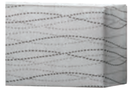

Wood Valances

Valances create a clean, attractive line whether your shade is mounted inside or outside the window frame. With so many styles, and our array of coordinating paints and stains, you can truly make this option your own.

Keystones

These accents cover splices—or seams—in larger valances and cornices, or they simply add visual interest. Keystones can be painted or stained in matching or contrasting colors to complete your design.

Fabric-Wrapped Cornices

Balance your shade with a fabric-wrapped cornice in your choice of fabric. For a more elegant touch, opt to upgrade to a premium fabric-wrapped cornice.

Soft Top Treatments

Add depth to your design with soft fabric detail. Available in a variety of top treatment styles.

Your Safety

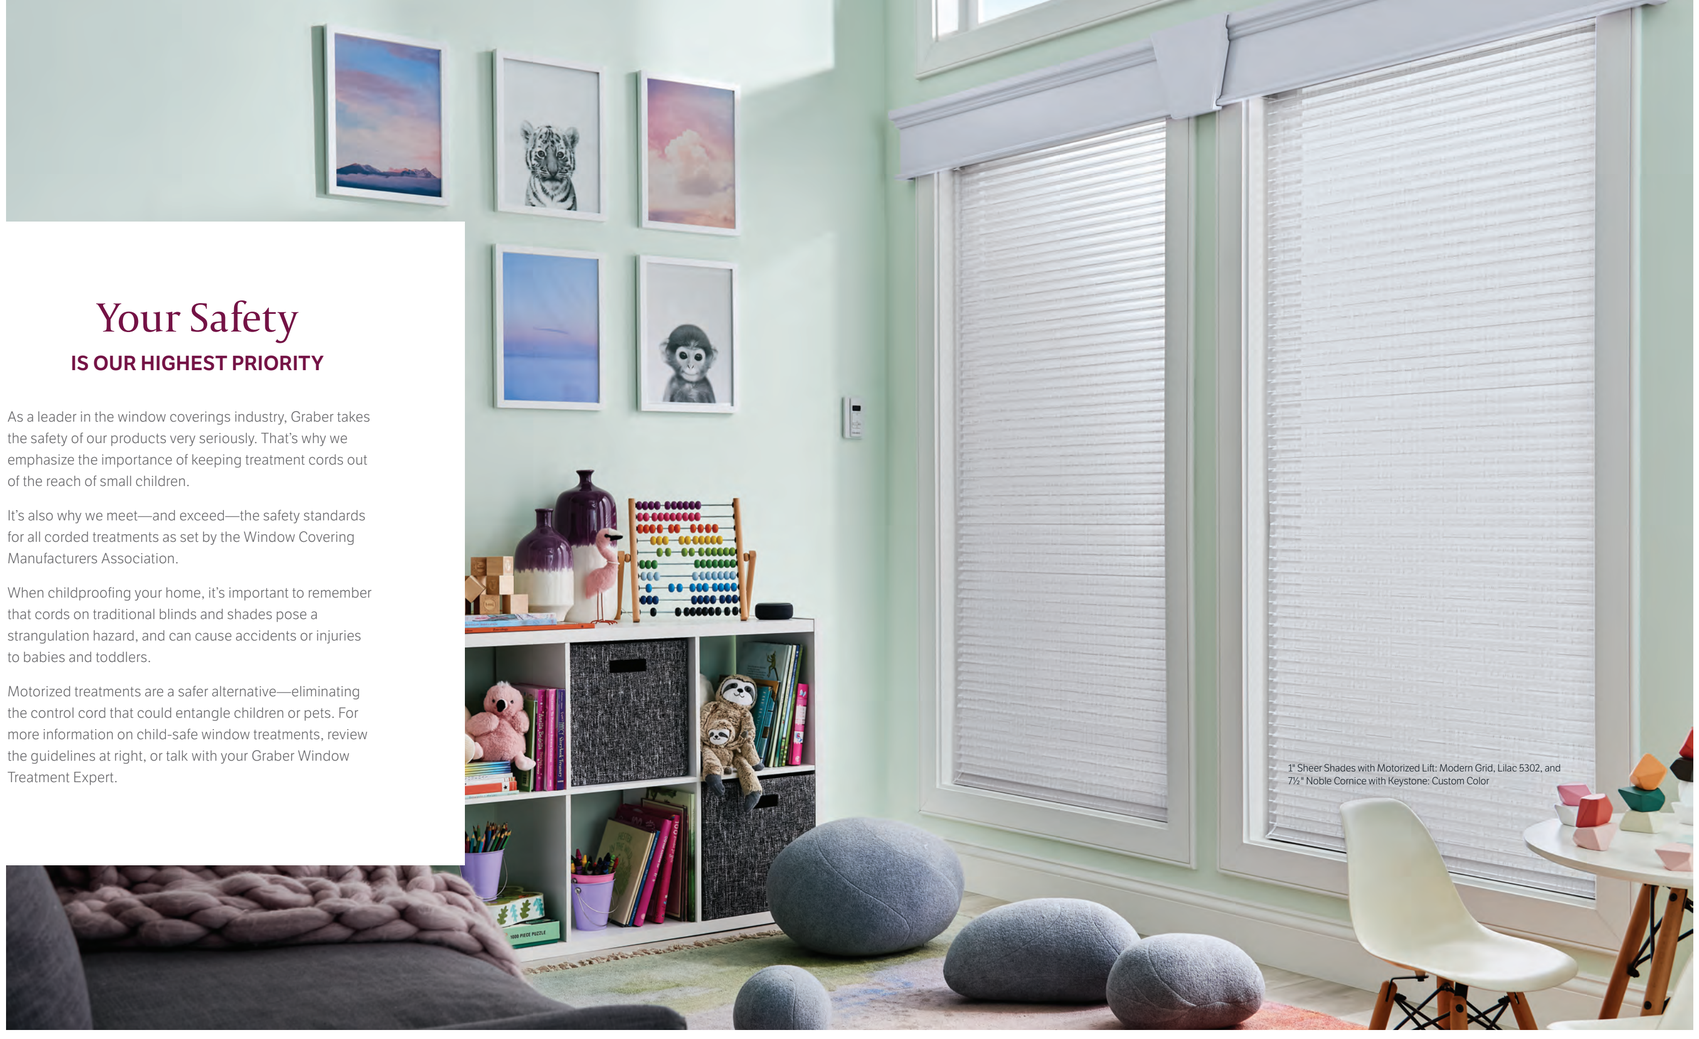

IS OUR HIGHEST PRIORITY

As a leader in the window coverings industry, Graber takes the safety of our products very seriously. That's why we emphasize the importance of keeping treatment cords out of the reach of small children.

It's also why we meet—and exceed—the safety standards for all corded treatments as set by the Window Covering Manufacturers Association.

When childproofing your home, it's important to remember that cords on traditional blinds and shades pose a strangulation hazard, and can cause accidents or injuries to babies and toddlers.

Motorized treatments are a safer alternative—eliminating the control cord that could entangle children or pets. For more information on child-safe window treatments, review the guidelines at right, or talk with your Graber Window Treatment Expert.

1" Sheer Shades with Motorized Lift: Modern Grid, Lilac 5302, and 7½" Noble Cornice with Keystone: Custom Color

Important Cord Safety Guidelines

The Window Covering Safety Council urges parents and caregivers to check for potential window treatment cord hazards and make the necessary safety updates.

- Install only cordless window coverings in young children's playrooms and sleeping areas.
- Replace or retrofit window blinds, corded shades, and draperies manufactured before 2001 with today's safer products.
- Move all cribs, beds, furniture, and toys away from windows and window cords, preferably to another wall.
- Keep all window pull cords and inner lift cords out of children's reach. Make sure that tasseled pull cords are short and continuous-loop cords are permanently anchored to the floor or wall. Cord stops should be properly installed and adjusted.
- Lock cords into position whenever horizontal blinds or shades are lowered.

For more information, contact the **Window Covering Safety Council** at **windowcoverings.org or 1.800.506.4636.** Look for more Graber products that are safer alternatives for children and pets at graberblinds.com.

SHEER & LAYERED SHADES

HEADRAIL DEPTH MOUNTING GUIDE

1. Place the appropriate headrail profile inside the window opening.
2. With guide in the window, check to see if the headrail has the minimum depth to mount. Indicators for fully recessing headrail in window casing/ molding are also available to check.
3. Final depth may vary based on the thickness of valance fabric selected.

If product configuration is not found here, please reference the product information guide.

NOTE: When ordering a motorized shade, add 1⅛" to accommodate the battery pack.
