fidelis®

Fidelis Composite Wood Blinds portray the warm, elegant look of real wood blinds in a collection of white finishes and wood-grain colors. All are ideal for rooms with heat and humidity and offer carefree cleaning and maintenance.

The View For You

Two different slat sizes
provide distinctively
different views.

Which one is right for you?

When fully raised, blinds
create a stack that covers
part of your window.

2" Slat Size

Available in all colors, the 2" slat size is our most popular style and offers clean, classic appeal.

2 1/2" Slat Size

Available in a variety of colors, the wider slat works well on larger windows and provides a nearly unobstructed view when slats are open.

Valances

Harmony™ Valance (Standard)

A sleek decorative valance that works in perfect harmony with any decorating style.

Harmony

Modesty™ Valance (Upgrade)

Generously sized to add traditional elegance to the look and perfectly proportioned for larger windows.

Modesty

Lafayette's exclusive Light-Ban® design option, eliminates rout holes to block out 50% more light, maximizing privacy and light control. The EZE-Clean® feature allows each slat to be removed and replaced for easy cleaning.

Operating Systems

Cord Tilt/Cord Lift

A cord is used to raise and lower your blinds. A second cord controls the slats to tilt open or closed to control the light.

Wand Tilt/Cord Lift

A cord is used to raise and lower your blinds. A twist of the wand controls the slats to tilt open or closed to control the light.

Continuum™

The Continuum cord-loop control provides reliable, trouble-free operation and is an excellent option for large blinds. (Available on 2" Only)

Cord Tilt

Wand Tilt

Child Safe Lifting Systems

Accu-Rise®

Our cordless operation allows you to lower the blinds with the touch of a finger with no worry about children or pets becoming entangled in hanging cords or controls.

Auto-Tilt™

Raise and lower your blinds with the touch of a button. Battery-powered controls combine both infrared and radio frequency technology for ultimate functionality.

Lift & Lock

Fully depress the button on the front of the bottom rail. Lift & Lock button MUST STAY FULLY DEPRESSED as you are lifting the blind. You can stop in any position by releasing the button. Operation may require the use of two hands to support the blind as you lift. (Available on 2" Only)

Certified Best for Kids™

Best for Kids™ requires manufacturers who want to be part of the program to meet stringent criteria and submit appropriate products to a third party testing laboratory recognized by Window Covering Manufacturers Association (WCMA). To become certified, these products either have no operating cords or inner cords that are not accessible. If accessible inner cords are present in products with no operating cords, they cannot create a hazardous loop or potential wrap-around hazard.
