Roller Shades | Roman Shades | Panel Track

genesis®

Roller Shades | Roman Shades | Panel Track

The Genesis Collection of fine window fashions has a window treatment for every taste and every space. The selection begins with roller shades, including a large selection of screen shades. The collection is rounded out with roman shades and panel track options.

An extensive array of materials in a variety of fashionable colors, textures and opacity is the signature feature of the line making it easy for you to choose the look that is uniquely yours.

Fashion forward fabrics in an extensive collection of colors, textures and opacities; custom made for every style and every space. The minimal design and reliable operation of roller shades, roman shades, and panel tracks work well with your everyday life.

Made in your own
neighborhood...

All Genesis® Shades are designed and crafted in West Lafayette, Indiana by Lafayette Interior Fashions - a family owned and operated manufacturer of custom window fashions for over sixty years.

Select with *confidence...*

All our products are custom manufactured to the highest quality standards and backed by a limited lifetime warranty.

Child Safety

Child Safety is Serious Business

When it comes to our children, there is no question that **safety** is our number one priority.

Let us help you choose the safest window treatment for your family with child-safe lifting systems from Lafayette Interior Fashions.

Certified Best for Kids™

Best for Kids™ makes it easy for parents and caregivers to identify products that are best suited for the home. To earn this important seal of approval, these products must have inner cords that are inaccessible to children or cordless operation. Therefore, certified products cannot create a potential wrap-around hazard.

Just look for the Best for Kids™ logo to choose the one best for your family.

Trust your family with the Lafayette family.

Roller Shade with Accu-Rise™ Lifting System and
Fabric Wrapped Valance
Featuring Fabric from the Artist Portfolio

OPENNESS

openness

Screen shades address the quality of light control and privacy in a slightly different manner. In screen fabrics, the view-through and light control are a function of the density of the weave. The tighter the weave the lower the openness factor to block more sun for more privacy but will also allow less view through. The higher the openness, the higher level of visibility and view-through.

Note: Openness and color combined offer different levels of light control, privacy, glare resistance, and visibility. White fabric can make a view blurred, while black fabric tends to make the view more crisp.

OPACITY

opacity

The amount and quality of light entering a room creates an atmosphere and affects its functionality. Genesis offers fabrics with opacity ratings ranging from sheer (1) to room darkening (5). These simple numeric codes (1 to 5) on each fabric swatch guide you to the degree of opacity that you desire.

COLOR

color

Color changes day to night: Any kind of light - daylight, artificial light, and even candlelight can dramatically change the appearance of color. View your color and opacity selection at different times of the day and evening for true color comparison.

ROLLER SHADES

roller shades

*Open Roller Shade
with Standard Clutch Control*

Open Roll - Standard

Fabric rolls from the back to provide a minimal profile at the window.

Reverse Roll

Fabric rolls from the front to provide a seamless flow of fabric.

Block Out Fascia System

Side and bottom channels with a fascia prevent light leaks around the edges to maximize room darkening.

Outside Mount

Ideal for narrow depth windows and achieving minimal light leakage.

Dual Roller Shades

Combine two shades in different opacities, one in front of the other, for the ultimate light control and privacy flexibility.

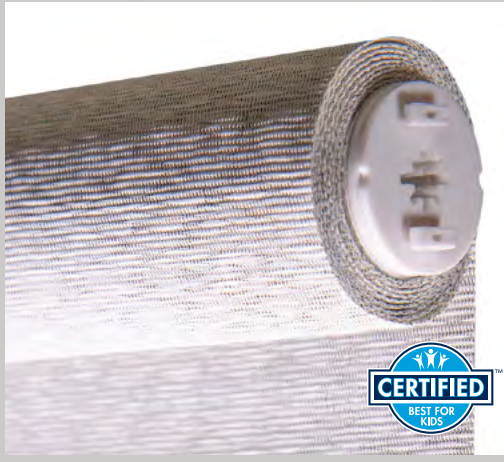

Two-on-One

Two shades operate independently under one cassette to fit wider width windows or doors.

ROLLER SHADES

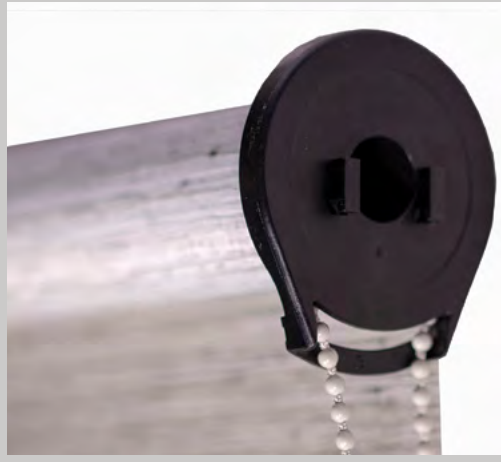

lifting systems

Child-Safe Certified

ACCU-RISE® CORDLESS

Certified Best for Kids™ and the ideal choice for homes with children and pets. To raise or lower your shade, simply grip the handle on the bottom rail and push up or pull down to position your shade at any level.

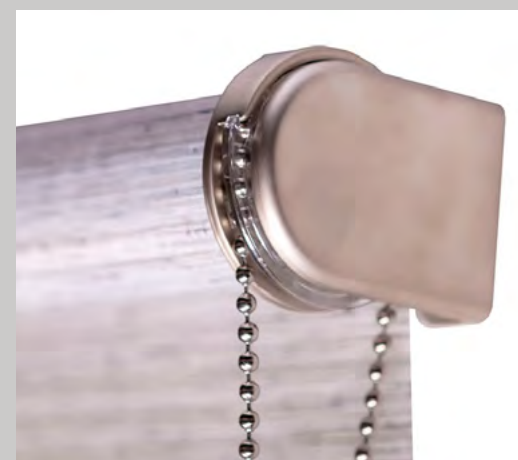

Standard

STANDARD CLUTCH CONTROL

Simply pull on the continuous bead loop to raise and lower your shade to any position with ease and accuracy. The specially designed cord tensioner eliminates dangling cords for enhanced child safety.

STANDARD CLUTCH CONTROL

Shown with Bracket Cover for Outside Mount

Upgrade

SATIN NICKEL CLUTCH

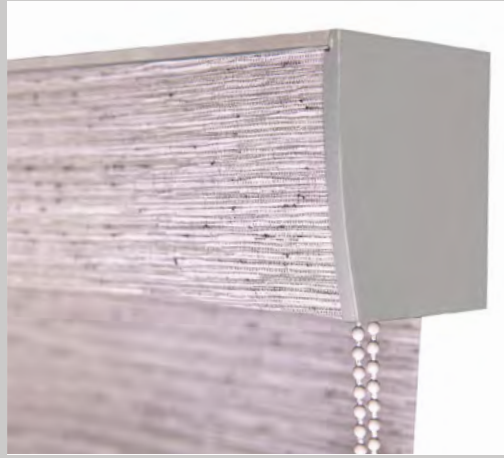

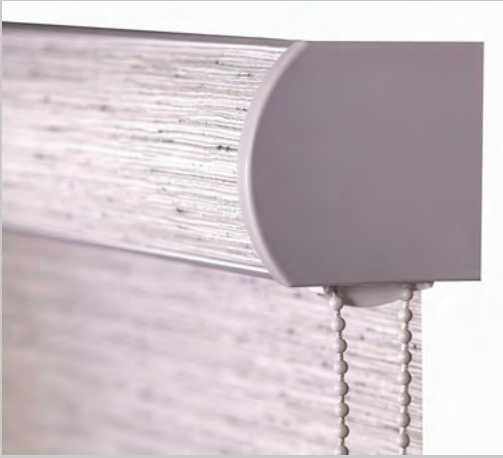

The same effortless operation with a decorative look.

LUXE DECORATIVE CLUTCH

A superior lifting system and a beautiful way to accentuate your outside mounted roller shades. Choose the stately look of finely forged metal end caps in the Luxurious Satin Nickel or Classic Vintage Brass.

cassette headrails

A sleek cassette headrail with matching fabric insert hides the roller components for a finished look.

CASSETTE

*Available in Small or Large
White, Vanilla, Brushed Nickel,
Bronze, and Black*

MODERN CASSETTE

*Also available in larger size:
Modern Plus
White, Vanilla, Brushed Nickel,
Bronze, and Black*

MIXED METALS

*Add a Designer Accent Insert of
mixed metals for a midas touch
Brushed Sterling, Brushed
Titanium, Brushed Graphite,
Bronze Shimmer, or Bronzed Pearl*

fascias

The fascia conceals the shade components and features a flat profile for a clean look.

3" AND 4" FLAT FASCIAS

*White, Vanilla, Brushed Nickel,
Bronze, and Black*

5" FLAT FASCIA

White, Brushed Nickel, and Bronze

ROMAN SHADES

roman shades

Top: Stationary Arch Shade with Frame
Bottom: Contemporary Roman Shade

Traditional

Shade fabric falls from the back of the shade and features lift cords on the room side and a 7" self-valance to conceal the lifting mechanism for a finished look.

Contemporary

Shade fabric falls from the front of the headrail with the cords hidden behind the shade for a clean modern look.

Special Shapes

Specially shaped windows such as angle tops, arch tops, and special configurations can be addressed in a wide selection of fabrics.

Child Safety

CareRING Cordless

Lafayette's CareRING Cordless lifting system lets you raise and lower the shade effortlessly without the hazard of dangling cords and is Certified Best for Kids.

PANEL TRACK

These beautiful oversized fabric panels look modern and move like magic. Panels are individually attached to a track, allowing them to glide easily from side to side. Choose from right, left, or split draw operation. They're perfect for large windows, slider doors, or even room dividers.

Right Draw Panel Track
3" Flat Aluminum Valance

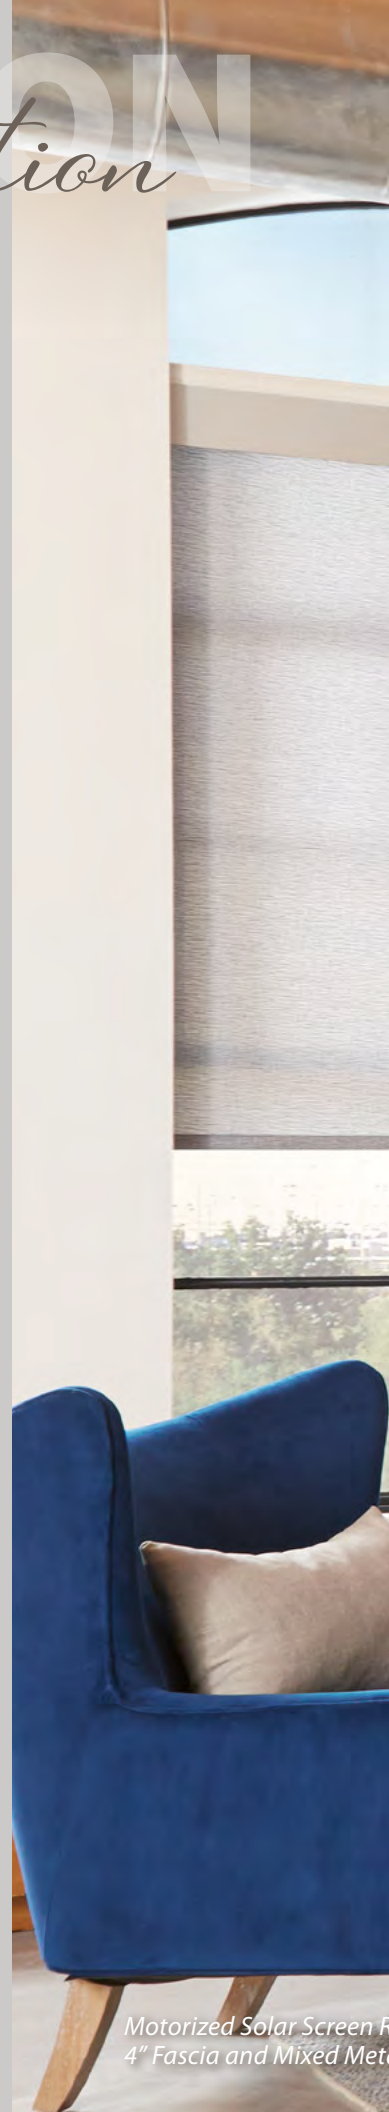

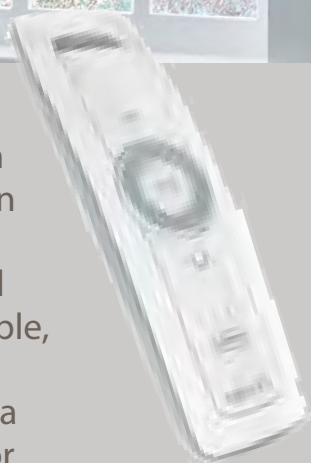

MOTORIZATION

rechargeable motorization

Somfy® Wirefree

Sonesse® systems from Somfy® features built-in rechargeable lithium-ion battery for minimal maintenance and reliable, ultra-quiet operation. Operation is easy with a remote, Telis Modulis or simple voice sommands using Amazon Alexa, mylink™ or Google Home through IFTTT.

SEASON-VUE

Season-Vue

Practical, beautiful and perfect for your patio, sunroom, or lanai. Stainless steel components with select Genesis materials resist moisture, control damaging UV rays and maintain your beautiful view. Many Genesis solar screen fabrics are certified for their energy efficiency, air quality safety, and use of recycled materials.

Season-Vue Solar Screen Roller Shade with Clutch

Season-View Solar Screen Roller Shade with Cable Guide System

A modern living and dining area with large windows. The windows are covered with light-colored roller shades and decorated with patterned curtains in shades of blue, green, and white. In the foreground, a light-colored sofa with several cushions is visible. In the background, a wooden dining table with four chairs is set up. A vase of blue hydrangeas sits on the table. A small potted plant is in the bottom left corner. The floor is dark wood.

Roller Shades with Open Roll

VOLUME

ONE TWO

screens & basics

Sometimes keeping it simple works best for functional light and privacy control. From residential to commercial spaces, this collection is perfect for any budget.

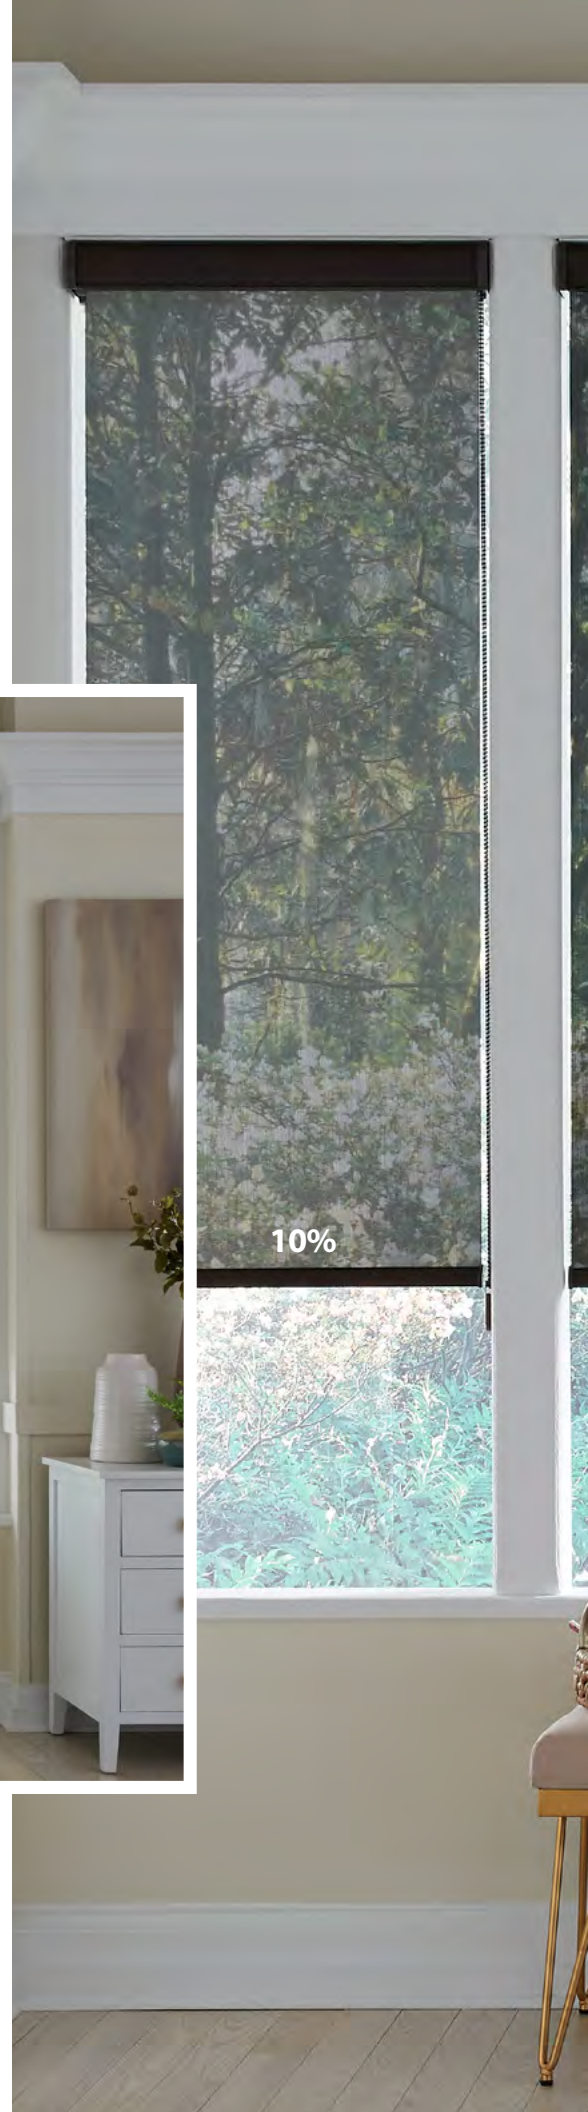

OPENNESS

openness

Screen shades address the quality of light control and privacy in a slightly different manner. In screen fabrics, the view-through and light control are a function of the density of the weave. The tighter the weave the lower the openness factor to block more sun for more privacy but will also allow less view through. The higher the openness, the higher level of visibility and view-through.

Note: Openness and color combined offer different levels of light control, privacy, glare resistance, and visibility. White fabric can make a view blurred, while black fabric tends to make the view more crisp.
