Woven Wood Roman Shades, Panel Drapes, & Stationary Grommet Panels

LAFAYETTE INTERIOR FASHIONS™

AMERICAN QUALITY CUSTOM | SINCE 1950

## Custom Crafted in the USA

*Made in Your Own Neighborhood*  
Manh Truc® Woven Shades are designed and crafted in West Lafayette, IN by Lafayette Interior Fashions. A family owned and operated manufacturer of custom window treatments for over 60 years.

*Select with Confidence*  
All Manh Truc Woven Shades are custom manufactured to the highest quality standards and are backed by a limited lifetime warranty.

Crafted from organic elements, Manh Truc® Woven Shades filter the sunlight and fill a room with warmth, texture and natural beauty. Discover an unmatched selection of styles including flat and hobbled shades, panel drape and stationary grommet panels. Each style custom-crafted with exceptional details such as finished headrails, fabric linings and sewn edge binding. Choose from a stunning selection of unique patterns, colors and textures.

Manh Truc Woven Wood Roman Shades with CareRING™ Cordless Lifting System are Certified Best for Kids™.

## Child Safety

When it comes to our children, there is no question that safety is our number one priority. Let us help you choose the safest window treatment for your family with child-safe lifting systems from Lafayette Interior Fashions.

*Trust your family with the Lafayette family.*

## Certified Best for Kids™

Best for Kids™ makes it easy for parents and caregivers to identify products that are best suited for the home. Simply look for the Certified Best for Kids™ logo and find safe products.

To qualify, these products must have inner cords that are inaccessible to children or cordless operation. Therefore, certified products cannot create a potential wrap-around hazard.

Manh Truc® Woven Wood Shades are available with child- safe lifting options. Roman Shades can be made with TLC CareRING™ a Best for Kids™ option. Plus Drape Shades can be ordered in cordless options as well.

# Roman Shades

## *The Hobbled Look*

---

### Traditional Hobbled

Add subtle softness to a room with woven wood materials that lay in overlapping folds, even when in the fully lowered position.

#### What to Know:

- This style features a 7" valance.

### Contemporary Hobbled

Woven wood material cascades from the front of the headrail, laying in overlapping folds even when in the fully lowered position.

#### What to Know:

- Operating cords hide behind the shade.
- An optional self-valance falls to the street side concealing hardware.

# Roman Shades

## *The Flat Look*

---

### Traditional Flat

The Traditional Flat style will hang flat when in the fully lowered position and create even, overlapping folds as it is raised.

### What to Know:

- This style features a 7" self valance

### Contemporary Flat

The Contemporary Flat style is similar to the Traditional Flat style but features fabric cascading from the front of headrail.

### What to Know:

- Operating cords hide behind the shade.
- An optional self-valance falls to the street side concealing hardware.

Clean Lines

# Stationary Grommet Panel

## Decorative Texture

Use stationary panels to complement your woven wood shades, accent other treatments for layers of texture, or as stand alone statements.

### What to Know:

A purely decorative accent, materials are railroaded (turned sideways) to create soft folds like a traditional drapery.

- Banding required.
- Seven grommet colors and a variety of hardware options (sold separately) can personalize the look.

## Grommet Colors

2" Grommet fits up to a 1 3/8" round drapery rod.

Matte Nickel

# Accent for Relaxation

A Manh Truc Traditional Flat Roman Shade pairs with Select Masterpieces grommet panels in earthy tones.

# Bring the Outdoors In

Incorporating natural textures like woven woods can enhance interior spaces with a sense of warmth and serenity.

# Get Your Perfect Look

## Choose Your Lining

Manh Truc Woven Shades can be crafted unlined for maximum view through, or lined with a room darkening or light filtering material. Want both? Check out our Duo-Shades on page 59.

### What to Know:

- The level of view through of an unlined shade will vary depending on the tightness of the chosen weave.
- A room darkening lining will block the majority of light coming in, but will not guarantee blackout.
- To secure potential sidelight seepage, consider an additional light gap stop design option, available with a surcharge.

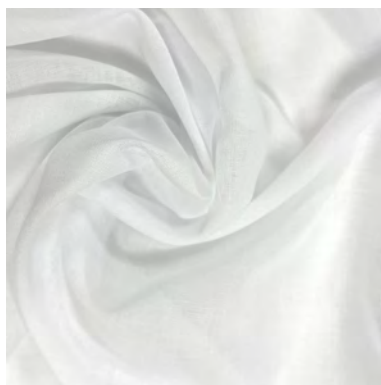

Pro tip: Put your swatches together and hold your choices up to the window at different times of day to get an idea of color and view through.

### Light Filtering

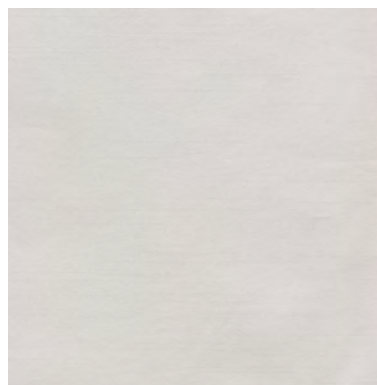

Gently diffuse the light.

Versailles, Pearl, 605

Versailles, Pure White, 656

Snowflake, 168

White, 885

Snow, 805

Cream, 235

# Decorative Banding

Banding can add a decorative touch to a woven wood shade. Pull in color accents from the room or break up visual lines. Available in 3" or 1 1/4" styles.

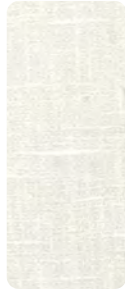

## CLASSIC BANDING

3" Style\*

Beige 075

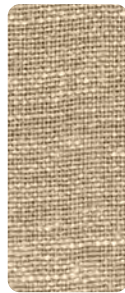

1 1/4" Style\*

Snow 805

Black 090

Sand 566

Greige 827

Twilight 852

Slate 800

1 1/4" BANDING

1 1/2" represents 3" and 5/8" represents 1 1/4".  
Bottom banding will always have a 1 1/2" face reveal,  
regardless of edge banding selection.

Choose a wood valance or fabric wrapped cornice and design treatments unique to your home's style. Browse our selection on the next page.

# Top It Off

# Top Treatments

## Wrapped Cornices

Select a wrapped cornice to top off your woven wood shades or accent a treatment from another collection.

### Railroaded Cornice

Woven wood material turned sideways makes for a vertical flowing “railroaded” look that pairs well with a Panel Drape or in treating a wider window. Standard size is 7” but can be ordered to any specified length.

### Straight Cornice

Standard length is 7” but this top treatment can be ordered at a specified length for your unique windows. The maximum width of a straight cornice is limited by your selected fabrics.

### Hobbled Cornice

A hobbled cornice features two 6” overlapping folds for a more traditional look.

## Valances & Wood Accents

Anchor your woven wood shades with a sturdy valance or add a frame to speciality shape arches. A wood hem in a coordinating color can finish off the look if banding isn’t your style. See the color choices below.

# Operating Systems

Lafayette has a variety of lifting systems and motorization solutions for Manh Truc shades to fit your busy life.

## Lifting Systems

### TLC Cord Sleeve

All Lafayette Roman Shades come standard with the TLC cord sleeve. This simple measure ensures operating strings cannot form loops large enough for potential entanglement hazards.

### CareRING™ Cordless

This system eliminates dangling lift cords. Simply reach for the ring hidden on the back of the bottom hem of the shade for easy raising and lowering. In conjunction with the TLC Cord Sleeve, your shade is optimized for safety.

### Clutch System

Simply pull on the continuous bead loop to raise and lower your shade to any position with ease. Ensure child and pet safety by properly installing cord tensioners.

### Cordlock System - Available until May 31, 2024

This lifting system features a locking mechanism to control the position of the shade, and comes with cord cleats for enhanced child and pet safety. Available in most flat and hobbled shade styles.

# Motorization Options from **somfy**

Time-tested and reliable, lithium-ion batteries offer a year of shade operation before charging is needed. These motorization systems are compatible with the Somfy myLink™ app for easy smart home integration.

## System II

Control a single shade or a group of shades with a remote, wall switch or the Somfy myLink™ app. Available with a rechargeable battery pack, reloadable battery wand, hardwired solar, or a plug-in transformer.

## Sonesse 40 Wirefree

A motorization option powered by a built-in rechargeable lithium-ion battery offering adjustable roller speeds.

## Ultra 30 Wirefree

A premium ultra-quiet motor powered by a built in Lithium-ion battery with adjustable roller speeds.

## Sonesse 28 Wirefree

A motor powered by rechargeable lithium-ion batteries. Easily set shades with adjustable roller speeds.

# Design Solutions for Unique Spaces

Not all windows are made the same. The Manh Truc Collection offers design solutions to fit specific needs, like a wood framed stationary arch featured here. Find more solutions for unique spaces on the next pages.

## Arched or Angled Top Shades

Accomodate special shaped windows with custom contoured woven shades that pattern the shape of your curved or angled windows.

### What to Know:

- Not available in all patterns.
- Available with cordlock lifting systems only. This is only available until May 31, 2024.
- Stationary arches available in wood framed or unframed options.

## Two Shades on One Headrail

Large windows can easily be handled with two or three shades that operate individually but share the same headrail.

### What to Know:

- Motorization available requiring multiple motors.
- Available in most flat and hobbled roman shade styles.

# Duo Shade

## *Shades Optimized for Privacy*

A liner operates independently of the shade so you can get maximum privacy and view options while still adding the warm texture of woven woods to your home.

### What to Know:

- Available with cordlock lifting system only.  
*Only available until May 31, 2024.*
- Motorization not available.

For french doors or windows with slim profiles, a turned headrail can be a fitting solution. Available for flat and hobbled roman shades with cordlock lifting systems only.
