Cellular Shades

Made in you own
neighborhood...

All Allure[®] Transitional Shades are designed and crafted in West Lafayette, Indiana by Lafayette Interior Fashions - a family owned and operated manufacturer of custom window fashions for over sixty years.

Select with
confidence...

All our products are custom manufactured to the highest quality standards and backed by a limited lifetime warranty.

CUSTOM
crafted
IN THE USA

Beauty and Brains

The inherent beauty of Parasol® Cellular Shades is certainly no secret, but these shades are so much more than a pretty face. The ingeniously designed cellular construction traps air in distinct pockets, which creates insulation that can help lower your energy consumption and energy bills.

An expansive range of pleat sizes, fabrics, colors, opacities and textures, along with innovative lifting systems and design options, make Parasol® Cellular Shades the smart choice for any window.

CHILD safety

Child Safety is Serious Business

When it comes to our children, there is no question that **safety** is our number one priority.

Let us help you choose the safest window treatment for your family with child-safe lifting systems from Lafayette Interior Fashions.

Certified Best for Kids™

Best for Kids™ makes it easy for parents and caregivers to identify products that are best suited for the home. To earn this important seal of approval, these products must have inner cords that are inaccessible to children or cordless operation. Therefore, certified products cannot create a potential wrap-around hazard.

Just look for the Best for Kids™ logo to choose the one best for your family.

Parasol® Cellular Shades are available with many child safe lifting options. Just look for the Best for Kids logo to choose the one best for your family.

From Summer

A modern interior space featuring two wicker armchairs with leather upholstery and plaid cushions. A wicker basket sits on the floor between the chairs. A low wooden coffee table is partially visible on the left. Large windows with cellular shades look out onto a snowy landscape with evergreen trees. The text "into Winter" is overlaid in the top left, and "Smart in All Seasons" is overlaid in the bottom right.

into Winter

Smart in All Seasons

Parasol® Cellular Shades have always been a smart choice for any window, but now they are even SMARTER. Parasol Octavia Cellular Shades take it to the next level with an additional inner cell - that adds up to superior energy savings and enriched, true color even in harsh sunlight.

Octavia

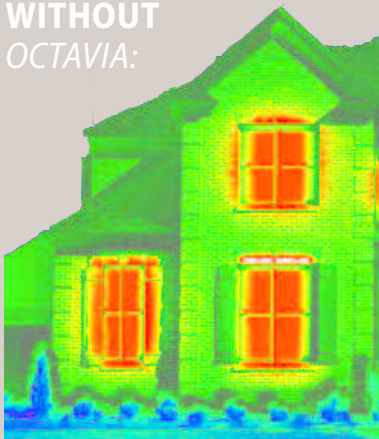

Parasol® Cellular Shades have always been a smart choice for any window, but now they are even SMARTER. Parasol Octavia Cellular Shades take it to the next level with an additional inner cell - that adds up to superior energy savings and enriched, true color even in harsh sunlight.

Available in Semi-Opaque and Opaque opacities, Octavia Cellular Shades work to save energy in both winter and summer, by trapping insulating air to reduce heat loss in the winter and heat gain in the summer all while still looking beautiful at the window.

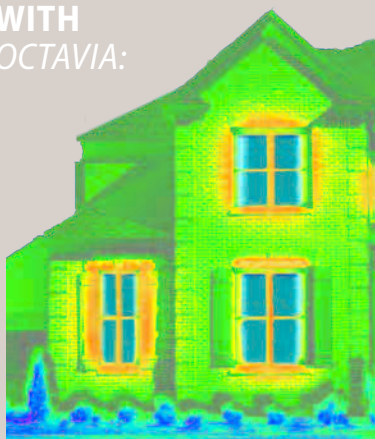

This unique and functional design technology makes choosing Parasol Octavia Cellular Shades a brilliant idea.

WITHOUT
OCTAVIA:

WITH
OCTAVIA:

Parasol Octavia Cellular Shades from Lafayette can reduce heat loss through windows up to 40% and reduce solar heat gain through windows up to 80%.

Reduced solar heat gain keeps your home cooler in the summer and lowers energy bills.

Lifting Systems

Sure-Lift™

Sure-Lift features a retractable pull cord system. The cord length remains the same when raising and lowering and can be set at any height for convenient operation and enhanced child safety.

Continuum™

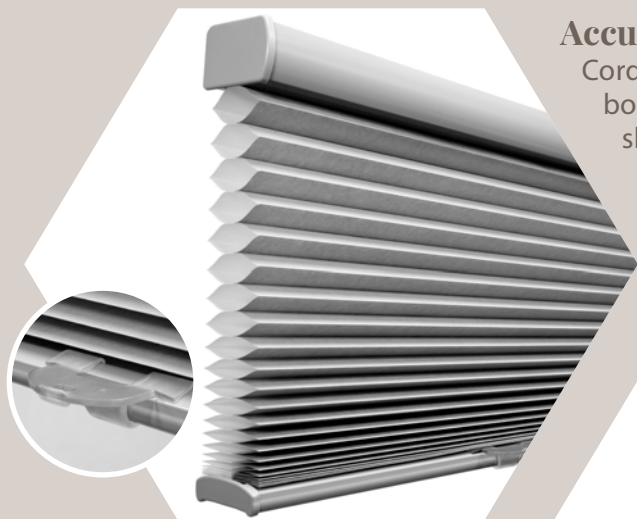

The Continuum cord loop control lets you lower and raise the shade by pulling on the cord loop for reliable, trouble-free shade operation. It is an excellent option for large and heavy shades.

Cordlock

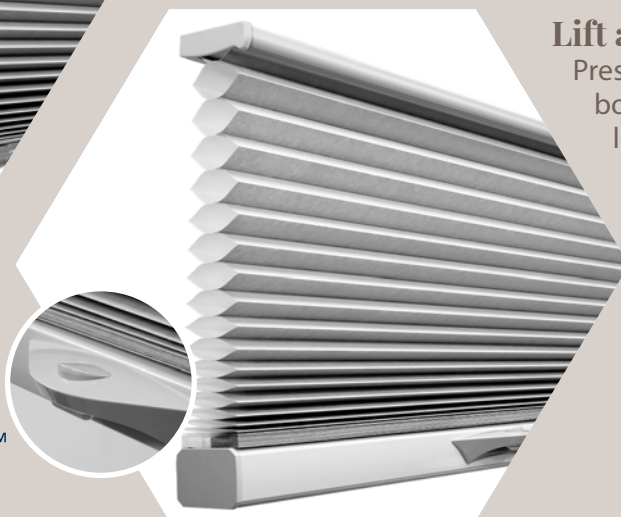

The original lifting system, the Cordlock system features a locking mechanism to control the position of the shade, and comes with cord cleats for enhanced child and pet safety.

Accu-Rise®

Cordless operation is easier than ever. Simply push up or pull down on the bottomrail or handle to raise and lower your shades to any position. Your shades stay right where you put them.

Lift and Lock™

Press and hold the button on the bottomrail handle to raise and lower the shade. Release the button to lock shade in position.

Child Safe Systems

Auto-Lift® Powered by AMP

Raise and lower your shades with the touch of a button. Auto-Lift battery-powered controls combine both infrared and radio frequency technology for ultimate functionality.

Somfy® Motorization

For the most versatile motorized solutions, choose System II™ battery operation or the Sonesse™ hardwired system. Control single or multiple shades with a remote or your favorite mobile device.

2" Opaque with Somfy® System II™ Motorization

Smart & Chic

Motorized shades provide convenience and elegance at the touch of a button and integrate seamlessly into other home automation systems. So relax, save energy, and simply enjoy the view.

COLOR changes throughout the DAY & into the NIGHT

Any kind of light - daylight, artificial light, and even candlelight can dramatically change the appearance of color.

It is best to view your color selection at different times of the day and evening for true color comparison.

The opacity you choose determines how much or little light fills your room, so be sure to take this into consideration when selecting your color.
