Design Options

Valances

The standard or deluxe valance adds the finishing touch to your faux wood blinds.

Standard

Deluxe

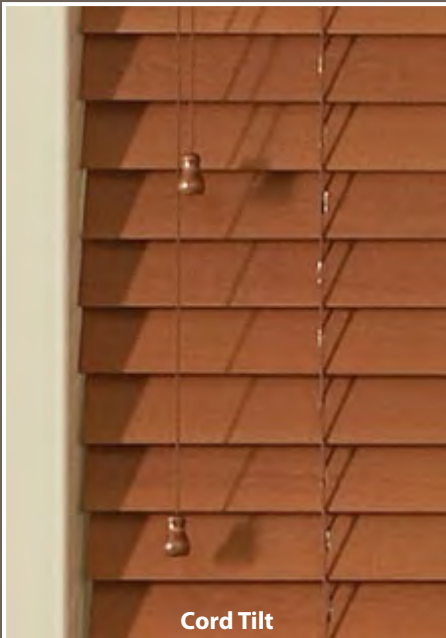

Lafayette's exclusive Light-Ban® design option, eliminates rout holes to block out 50% more light, maximizing privacy and light control. The EZE-Clean® feature allows each slat to be removed and replaced for easy cleaning.

Operating Systems

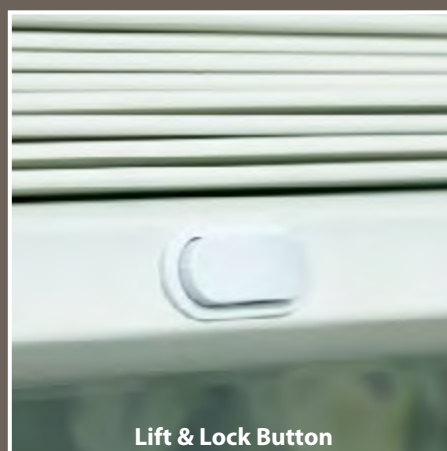

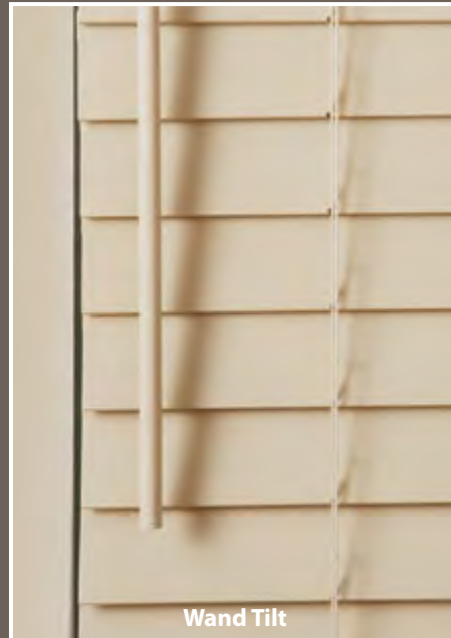

Cord Tilt/Cord Lift

A cord is used to raise and lower your blinds. A second cord controls the slats to tilt open or closed to control the light.

Wand Tilt/Cord Lift

A cord is used to raise and lower your blinds. A twist of the wand controls the slats to tilt open or closed to control the light.

Lift & Lock

Fully depress the button on the front of the bottom rail. Lift & Lock button **MUST STAY FULLY DEPRESSED** as you are lifting the blind. You can stop in any position by releasing the button. Operation may require the use of two hands to support the blind as you lift.

The View For You

Two different slat sizes provide distinctively different views.

Which one is right for you?

When fully raised, blinds create a stack that covers part of your window.

2" Slat Size

Available in all colors, the 2" slat size is our most popular style and offers clean, classic appeal.

2 1/2" Slat Size

Available in a variety of colors, the wider slat works well on larger windows and provides a nearly unobstructed view when slats are open.
